

CHAMBER AND COUNCIL.

The Census and Other Matters Discussed This Morning.

Council Orders a Cable; Special Committee In Session.

Considering the importance of the meeting, there was a very ill attendance at the Chamber of Commerce this morning. Secretary Thompson made a lengthy report of the census matters and the results of his conference with Supervisor Smith. Mr. Smith came up from St. Paul last night, and at 8 o'clock had a meeting with the enumerators.

This meeting was entirely secret, as the law does not allow any one not connected with the census to be present. After the conference with the census takers, Mr. Smith was closeted with Mr. Thompson and others. He said that Mr. Porter had instructed him to give Duluth all the time necessary, but that the enumerators seemed inclined to object to further work.

"On one important point," I have instructed the enumerators," said the supervisor. "When there is any doubt as to the residence of a man, whom an enumerator supposes lives in the city, such doubt is to be taken in favor of the city. Also, when any person is mentioned by a reputable citizen as living in the city, the enumerator must take the other name."

These are two most important matters for the citizens and enumerators to consider, as by the authorization of the latter section, citizens can legally render great help in completing the census correctly.

Every resident of Duluth, who has the welfare of the city at heart, should work tomorrow towards giving a full census. All day the enumerators will be stationed at the chamber of commerce and at Hall's West End bank, Garfield avenue and Michigan street. It is also pointed out that the fact that the enumerators have been granted Duluth full time in which to complete the census, it is reasonable to expect that within a few days a telegram will be received from Washington closing the enumeration. If you have not seen an enumerator, call on one at the chamber of commerce or Hall's bank tomorrow.

After the census matters were adjusted, the regular business of the meeting was taken up. C. Mitchell, being called to the chair, Mr. Porter, John Birkinbine informed the Chamber that the program for the northern excursion of the British and American engineers was already made up, not including Duluth, but that he had written to the secretary of the American Society strongly urging that it be changed and that Duluth be visited. The matter of the entertainment of the British and American engineers was left in the hands of a committee of five. In a banishment to the Chamber Mr. A. M. Bailey, chairman of the millers' convention entertainment committee, writes: "We have secured a special train over the Eastern Minnesota road for these millers, who wish to visit Duluth. There will probably not be less than forty persons. There will be four or five coaches on the train, which will leave Minneapolis after the banquet the evening of the 18th, reaching Duluth the morning of the 20th. We thank you for the entertainment you have provided and it will be appreciated."

It devolves upon the business men of this city to give the visitors a good impression of Duluth. In the opinion at this point of one or more mills, may depend upon it. It is known that several St. Louis millers will be among those to come here Friday, and it is also known that they are looking for a good milling site. And if they are shown Duluth and its many advantages pointed out to them they might be brought to consider this city as the best available point.

Max Niedler, president of the Compressed Fuel company, asked for a site of 20,000 feet, with good rail and water facilities upon which to erect a fuel plant. He informed the Chamber that they wished \$25,000 subscribed to the stock of the company, which would be capitalized at \$100,000. The capacity of the plant they proposed is 100,000 tons per day, with a capacity of 250,000 tons per day. The matter was left to the discretion of the committee on manufactures.

CITY COUNCIL.

Firmen Get an Increase in Wages; Cable up Lake Avenue.

The weekly session of the council last evening was a short one, but a large amount of routine business was transacted. The railroad committee reported favorably on the petition asking for a cable line up Lake avenue, from Superior street to the city hall. The resolution was passed instructing the Street Car company to build such a line introduced by Ald. Sinclair and passed under a suspension of the rules compelling all canvassers for books, papers, or other literary or religious matter, not usually found in book stores, to pay a license of \$1 for one day or \$2 for a week.

Ald. Sinclair also introduced an ordinance calculated to suppress gambling. Under its provisions any person who deals for or other games with cards, or suffers any game with cards, dice, or other gambling device shall be punishable by a fine not exceeding \$100 or imprisonment for not more than ninety days. Any person who plays any game prohibited by the ordinance shall be punishable by the same fine or imprisonment. The ordinance was referred.

An ordinance authorizing the issuance of \$100,000 of city bonds for the benefit of the general fund was referred to the finance committee. An ordinance granting to the Duluth Gas & Water company the right to extend its mains to connect with the West Duluth mains was referred to the ordinance committee. The action of the president, appointing Alderman Costello a delegate to the Washington to urge upon the war department the necessity of the canal bridge, the department having refused the deeds to lots 21 and 20 to be used for that purpose, was approved. Frank Higgs announced Alderman Long, Mannheim and Perry as a special committee for the revision of the charter.

The report of the fire department for the month of May showed disturbances amounting to \$1,000,000. The salaries of firemen who have served more than one year were increased \$15 a month to the following figures: Captains, \$70; lieutenants, \$65; pipemen and truckmen, \$60. A communication from the board of fire commissioners asking to have the placing of wires in the streets was referred to the committee on ordinances.

THE WORLD OF SPORT.

A Game Protective Association is Formed; the Yacht Club.

A Waiver From the Winnipeg Crew; in Field and Stage.

The committee on work appointed last night to revamp the city charter met this afternoon. But little work was done today, the idea being to get views of the several members on the business to be done. It has been decided to call all heads of departments in the city government to send in what changes they may consider desirable or necessary. The committee will have in such cases these views will be carefully gone over and discussed and the committee will have in such cases these views will be carefully gone over and discussed and the committee will have in such cases these views will be carefully gone over and discussed.

There has been a good deal of morrow among council men and committee men over an article appearing yesterday morning detailing their intended work. It stated that the city had issued a percent bond at a premium, when the lowest bonds ever sold by Duluth were 1/2 percent. It stated that the park bonds sold \$32,000 and delivered \$50,000 of its bonds, when not a cent of park bonds has yet been issued. It stated that the committee would raise the 5 percent cent of valuation limit of debt, when the limit is, happily, fixed by law that no change in the charter can raise it.

WEST END.

The General S. W. of the Day: Many Personal Items.

The social last night at 729 Garfield avenue was a very successful one. Everyone was away greatly pleased. The American Steel Barge company has begun moving to the other side of the bay. A large number of the men have signified their intention of remaining on this side.

Mrs. L. Larson returned last night from a short visit with friends in Farmington, feeling much improved in health. Her and family have returned from a month's visit in Montreal, Canada, with friends and relatives.

Miss Minnie Hall has returned from Carleton place, Northfield, where she has been attending her studies. Dr. and Mrs. Horace Deane and Mrs. A. W. Lacy and children went to Minneapolis this afternoon.

Daniel Sullivan, brickman on the Short Line, is carrying two married figures.

The Ladies Aid society of the Second Baptist church, corner of Second and Twentieth avenue west, will hold a tea social tonight. Everybody cordially invited.

Delegates to the Temperance Convention, the following: ladies and gentlemen left on the Esplanade for the diocesan convention of all the total abstinence societies to be held at Stillwater tomorrow and Thursday Mrs. Phelan, Miss Annie Farrell, Miss Annie Hendy, C. P. Macdonald, A. Duluth and Jacob Laux.

MORE HOMES.

Duluth Needs Them for Her Working People of All Classes.

What Duluth needs is homes for her working men. More and more is it coming to be, in these days of rapid transportation and cheap travel, that both business men and working men are seeking their abode in suburban villages, a few minutes' ride from the city.

The suburban home of the '90s used to be a poor place in which to live. There were then no conveniences, no gas, water and the like. But today the comfortable railway trains were the cause of the suburban home. The suburban home of today is a reality. The suburban town of today is a reality. The suburban town of today is a reality.

But 1890 is much different than 1880. The suburban town of today is a reality. The suburban town of today is a reality. The suburban town of today is a reality. The suburban town of today is a reality. The suburban town of today is a reality.

THE WORLD OF SPORT.

HERALDINGS OF A DAY.

The News Boiled Down.

Local.
The council's weekly period.
Weather forecast: Warmer, fair weather.
Yachtsmen perfect a permanent organization.
Important meeting of the Chamber of Commerce.
The South Shore will issue \$200,000 in bonds.
Work begun clearing the townsite of St. Louis.
A fish and game protective organization formed.

National.
A new Dakota-Texas line.
Extensive strike in Boston.
Main democrats are divided.
A timely discovery at Rochester.
Smoking train burned in California.
The Maria launched at Cleveland.
Banker Miller preparing for prison.
Product of the Pennsylvania coal mines.
Additional particulars of the mine horror.
All ocean records broken by the Columbia.
The work of the New York state department.
Philadelphia will have a McMillan monument.

Foreign.
Cholera districts being quarantined.
Mary Anderson married this morning.
Guessing contests are popular in England.

Northwest.
A triple drowning at Anoka.
A suspect found in Minneapolis.
A Milwaukee railroad official leaves.
Milwaukee Presbyterians preparing for war.
National Miller's convention at Minneapolis.
Evangelists from the Farmers' Alliance meeting at Perkasie Falls.

At Police Court.
The promise of warmer weather appears to have the effect of decreasing the number of drunks. This morning there were only twenty-two in the municipal court. Mary Lanning, who has been out of jail a little longer than usual this time, was up again this morning. Seven days, likewise, the Baltimore and Dan Garvin, who was up for four days, were sent out for four days. John Elliott charged with stealing a quantity of clothing from a man named Larson, will have an examination tomorrow. Jessie Wilson, a young woman who has followed the occupation of "chair-warmer" at the Peoples theater for some time, was arrested yesterday by Officer Morgan on the charge of selling beer without a license. She pleaded not guilty, and her case was set for hearing on Friday. In default of \$30 bail she rode out to the county jail.

PERSONAL.
Theophilus Smith, state census supervisor, made a hurried visit to Duluth last night. He said Duluth should have a complete enumeration.
Mrs. Bowman and Pillsbury have gone to Waukesha, Wis., to attend the national convention being held there, and will return Friday morning.
Carl K. Loflund left for Christiansburg, Norway, yesterday afternoon. He will return in about three months with his wife and four children. These ought to be the census.
Ex-Alumnus Heather, from the Twenty-third ward of New York city, is in Duluth.
B. F. Shanley went to Chicago today to attend the national convention of building inspectors, opening there on Wednesday. It is expected that every state will be represented and an organization formed.

James C. Hunter, cashier of the American Exchange bank, will leave for St. Paul this evening. He will return with Mrs. Hunter.

Nice Upham, who has been away at school for the past year, returned today from Brooklyn, bringing a young lady friend with her.

Messrs. H. S. Munger and T. A. Olmsted, president and vice president of the Imperial Mill company, went down to Minneapolis last night.

C. B. Wagner, who has been with G. T. Porter & Sons for the past two or more years, has just been discharged from the store. Mr. Wagner has a good deal of business ability, and is a musician and artist of considerable skill.

Editor A. S. Potts of The Port Arthur Sentinel, is in Duluth today, looking over business, and making a pleasant call on The Herald. He returns to Port Arthur in a day or two.

W. N. Fulkner returned from a business visit to Chicago & St. Louis this morning.
C. W. Leviston has returned from a Chicago visit.
Mr. and Mrs. J. W. Marcin and little child returned last night on the India from the East.

Mrs. J. E. Woodbridge, Mr. and Mrs. W. S. Woodbridge and J. E. Woodbridge returned from the East on the steamer India.

H. Gill, owner of the Duluth roller mill, left for Minneapolis last night to attend the millers' national convention. Webster Eaton returned yesterday afternoon from a fishing trip to Burnside lake.

Ex-Mayor Sutphin has returned from a Western business and pleasure trip. The Spaulding has as guests today Mr. and Mrs. E. T. Howard, St. Louis; Mr. and Mrs. M. O. Harley, Chicago; Mr. J. D. Elliott and wife, Lyndell, N. D.; and Mrs. Griffiths, Omaha, Neb.

Mr. A. Harrington returned this morning from a tour to the Pacific coast.
Mr. and Mrs. L. S. Barker, Chicago, are at the Merchants.
R. S. Russell, advance agent of the "Rip Van Winkle" company, is at the Merchants.

Among the arrivals today at the St. Louis are: Mr. H. Kennish and his wife, Kennish, England; the Misses Pain, St. Paul; Mr. and Mrs. S. Johnson, Barab, and Mr. J. Peetwell and wife, Altoona, Pa.

Amos Shepherd returned this morning from Northfield. He brought back two fine specimens of horned larks.
J. J. Costello and Maj. M. R. Baldwin, who have been appointed to go to Washington and look after the bridge matter, will leave this evening for the capital city.

The steamer Spirit will give a family excursion to Spirit Lake on Wednesday, June 18th. Leave St. Paul & Duluth at 10 a. m. Returns home at 5:30 p. m.

A fifty-foot corner on the upper side of Second street, in Endion. Only \$1500; easy terms.
D. H. STEVENSON & Co.,
13 Exchange Building.

Highest of all in Leavening Power.—U. S. Gov't Report, Aug. 17, 1889.

ABSOLUTELY PURE

MANY MERRY MILLERS.

Meet Men of Minnesota's Month Mills in Minneapolis.

Grain Grinders Dustily Discuss Their Timely Topics.

MINNEAPOLIS, June 17.—The most numerous attended convention of the National Millers' association ever held opened here today, over 200 delegates being in attendance, from New York city, St. Louis, Boston, Philadelphia, Rochester, Buffalo, Chicago, Duluth, and other cities. Many flour men as well as mill furnishers are among the delegates. The business which is of a technical character will occupy four days.

The special vestibule train, bearing 175 delegates to the convention of the National Millers' association, was late this forenoon. This delegation of 175 from all sections of the Eastern country had been preceded by the arrival of thirty of the faithful from St. Louis, while Horace S. Wade, New England agent of the Columbia mills, had arrived over the boat with a delegation of thirty-three. The two constitutions are much alike, it being the general aim of the committee to broaden the scope of the association's aims and objects.

Altogether there are about 600 delegates in attendance at the convention; including in addition the millers, many mill furnishers and flour commission men.

The first place the millers have decided that, formal class papers, "followed by discussion," are not only uninteresting, but are unproductive of benefit as well; so for the first time in the history of the association no papers will be read during the four days' meeting, and none of the delegates have been assigned to prepare themselves upon special subjects. Instead there will be three topics brought up for discussion in the course of the convention's deliberations, all of which are of interest to the fraternity.

The discussion of the advisability of adopting a new constitution will be of a technical nature, but of importance to the association. There is also a more or less new bill of lading to be discussed, and the few delegates who are present are not only interested, but are unproductive of benefit as well; so for the first time in the history of the association no papers will be read during the four days' meeting, and none of the delegates have been assigned to prepare themselves upon special subjects.

The bill of lading for discussion will be the now famous Butterworth anti-option bill. There is much division of opinion on option trading among the millers, and there will be a lively discussion. Wednesday afternoon the association will take a trip to Minnetonka, dining at the Hotel St. Louis, while during the afternoon the Minnetonka Yacht club's race will prove an attractive feature in matters aquatic. Thursday evening the ladies' oratory will be surrounded to the delegates and their wives.

At the close of the banquet a special train will be in readiness to convey the party to Duluth, where Friday will be spent in inspecting that city. Friday night the party will leave for Fargo, arriving in that city the following morning. That day will be spent in the valley of the Red river.

Local Market.
The local market today was exceedingly dull. Early in the day corn, followed by free selling and a decline. The opening here was very weak in consequence, but later the market turned up under a slight demand. July opened at 57 1/2, August at 57 1/2, and September at 57 1/2, all advanced to 57 1/2, where it closed. The transaction in the aggregate did not exceed 100,000 bu.

Cash No. 1 hard closed at 57, cash No. 1 northern, 57 1/2, cash No. 2 northern, 57 1/2, June No. 1 hard 57 1/2, June No. 1 northern 57 1/2, July No. 1 hard 57 1/2, July No. 1 northern 57 1/2, August No. 1 hard 57 1/2, August No. 1 northern 57 1/2, September No. 1 hard 57 1/2, September No. 1 northern 57 1/2.

Today's Movement.
Cars on track: Wheat, 4; Receipts: Wheat, 2,500 bu; corn, 1,500 bu; Shipments: Wheat, 2,500 bu; corn, 1,500 bu; Flour, 500 barrels; No. 1 northern, 25; No. 2 northern, 30; No. 3, 10; No. 4, 5; No. 5, 2; No. 6, 1; No. 7, 1; No. 8, 1; No. 9, 1; No. 10, 1; No. 11, 1; No. 12, 1; No. 13, 1; No. 14, 1; No. 15, 1; No. 16, 1; No. 17, 1; No. 18, 1; No. 19, 1; No. 20, 1; No. 21, 1; No. 22, 1; No. 23, 1; No. 24, 1; Minnie Cuts St. Paul's Judas Friendship for Good and All.

Arrest of Enumerators by the Scared City the Cause.

MINNEAPOLIS, June 18.—[Special to The Herald.]—The most intense excitement prevails in this city over the arrest of seven census enumerators last night on a charge of fraudulent practices in taking the census on a complaint made by a citizen of St. Paul. The result is conceded to be a final rupture of all friendly relations between the two cities. Minneapolis business men are withdrawing from the Twin City club, an organization gotten up by both cities for mutual benefit with an ultimate intention to unite the two cities. A meeting of citizens has been called for this evening to take concerted action.

MINNEAPOLIS, June 18.—Last night at 9 o'clock a United States marshal from St. Paul forcibly entered a room where the Minneapolis enumerators were at work and arrested seven of them at the point of a revolver, taking them to St. Paul, where they would have been compelled to remain in jail over night had it not been for the opportune appearance on the scene of several responsible Minneapolis citizens.

The warrants for the arrests were sworn out by William Pitt Murray of St. Paul, who was already prominent in an attempt to oust the census from the enumeration of the population of this city. The arrested men were taken before the United States commissioner in St. Paul, despite the fact that there is a United States commissioner in Minneapolis who should have been given jurisdiction as required by law.

The citizens' census committee had engaged a room on the second floor of the Vanderburgh block, where a number of government census enumerators were last night engaged in verifying the returns offered by the citizens' committee. Early in the evening Deputy-Marshal Duggett of St. Paul called a strike and police station and requested the use of a patrol wagon, which was granted. At 9 o'clock Duggett opened the door of the committee room with great force and arrested W. H. Webber, district 315; Ed. Jones, district 426; James W. Wood, district 401; Orrin Plumber, district 305; Ben Aaron, district 300; Charles Knapp, district 300; and Louis Hagerman. The charge is that the census returns have been padded and falsified. Several prominent Minneapolisians at once went over to St. Paul and gave bail for the prisoners, who were released.

It is charged that the warrants of arrest were illegal. Excitement is at fever heat in Minneapolis where it is believed that the whole thing was inspired by St. Paul's jealousy. Warrants are said to be out for Supervisor Davenport and several other enumerators, but they have not yet been served.

A Pot and Kettle Row.

ST. PAUL, June 18.—The excitement which has existed over the census in the Twin cities culminated last night in the arrest of eight Minneapolis enumerators on the charge of falsifying the returns. United States Commissioner McCaffrey was called from his bed and the men arrested at 11 o'clock last night. Bail in each case was fixed at \$500. The arrests resulted from affidavits made by William Pitt Murray, a well known St. Paul lawyer, who filed them at Washington a week ago. Detectives were at once sent to Minneapolis and it is claimed sufficient evidence of crooked work has been discovered to convict all those arrested.

AGAINST IMPORTED LABOR.

Chicago Association Making a Hard Fight to Counteract Evidence.
CHICAGO, June 18.—A local paper says: The Carpenters and Builders association will have its hands full in defending the cases which it is said will be begun against its members by the treasury department. It is said that over fifty cases of violation of the contract labor law are already in the hands of Special Agent Stinch. The evidence in each case when complete, will be forwarded to Secretary Windom.

It has recently come to the knowledge of Agent Stinch that not less than 30 men have come here from Canada in answer to advertisements inserted in the newspapers by the local association. These men have expressed their willingness to appear against their former employers and will be used as witnesses for the government.

The carpenters' council has been co-operating with Agents Stinch and Lester, in ferreting out derelict bosses. Committees, whose object it is to locate alien carpenters, are scouring the city and making daily reports to the council.

An Apache Trick.

LOUISBURG, N. M., June 18.—A cowboy arrived at the station of Separ, on the Southern Pacific, yesterday and said that the Indians had attacked a camp of cowboys on a ranch. He and ten others were in camp when, on Monday night about 10 o'clock, a band of ten or twelve Indians rode down upon them and attempted to shoot them. Some of the cowboys were armed, but not expecting an attack were not prepared for defense. He thought all his companions were killed.

A Grand Society.

CHICAGO, June 18.—The seventh annual meeting of the American Educational Aid society was held yesterday afternoon at the Grand Pacific hotel. Nearly 100 were present. The report of the general superintendent, Rev. N. Y. B. Van Arsdale, showed that during the past year homes had been secured by the society in Illinois, Iowa and Minnesota for 500 children. Today a board of directors will elect the officers of the society.

Agent Freight Rates.

BUFFALO, June 18.—It is said that a general increase of freight rates is likely to follow the meeting of the committee of uniformity in freight classification which opens at the Niagara hotel today. A plan for amalgamating the various classifications is certain to be adopted at the meeting.

PURELY BAD LUCK.

Or is it the Result of a Little Bad Talent?

NEW YORK, June 18.—Bad luck seems to stalk in front of Geo. C. Milan, the ex-preacher-actor, wherever he goes and whatever he essays to do. Milan will be remembered as the Congregationalist-Unitarian, and then revised Unitarian divine who, some years ago, created a profound sensation by leaving the pulpit for the stage. For a while he was fairly successful from a financial point of view, but as soon as the novelty had worn off audiences that were purely nominal in size greeted him wherever he went, and a year or so ago he returned to this city in a condition which is described in professional parlance as "broke."

A PHILANTHROPIST DEAD.

Noted Chicago Physician's Obsequies Highly Observed.

CHICAGO, June 18.—Over 100 medical men, representing the profession not only of this city but of many other states, participated in the funeral of the funeral of Dr. Joseph P. Ross, who died on Sunday from softening of the brain. The services were conducted at the residence on Washington boulevard by Rev. Dr. Withrow of the Third Presbyterian church, and the interment was in Graceland cemetery.

Dr. Ross was one of the most eminent and successful physicians in the world in his health by his energetic labors in a movement looking to the building of a great sanitarium on Look-out island, which he regarded as one of the most suitable places for such an institution to be found in the country.

COPPER MINERS OUT.

A Thousand Men Striking at Chalmers; the Number May be Quadrupled.

CALAMITY, Mich., June 18.—[Special to The Herald.]—One thousand miners quit work this morning after demanding 10 per cent raise in wages and eight hours' work. Superintendent John Daniel is in Arizona and has been wired to return immediately. A strike will undoubtedly extend to the Calumet and Hecla and Osceola mines affecting between 400 and 500 men.

A RICH FIND.

Another Silver Mine Found Near Port Arthur, Ontario.

PORT ARTHUR, June 18.—Another rich find of silver has been made near the famous Beaver mines. The new discovery is a vein four feet wide, with a fourteen inch pay streak of native silver, sulphide of silver, argentiferous galena and zinc blende, which goes as high as 1750 ounces of silver to the ton. The vein was traced over a mile, and 1000 tons of ore were taken out. A property has been bought for \$30,000 cash.

A Denominational Convention.

CHICAGO, June 18.—Delegates to the seventh day of the Presbyterian general church of the New Jerusalem in the United States are arriving on every train. The convention proper, which will represent the various state associations throughout the country, opens on Saturday, but the preliminary meetings have already commenced. This morning there was a council of ministers, at which many questions of importance to the denomination were discussed. This afternoon there will be a meeting of the synod, which is the highest body of the denomination. An oration will be delivered by Rev. Frank Sewall of Washington, D. C., on "The Fundamental Use of the Ministry."

North Dakota Firemen.

FARGO, N. D., June 18.—This is the second day of the Firemen's tournament. Arches of evergreen have been erected on the principal streets and most of the business houses are draped with flags and evergreens. Today horse team and bicycle races will begin and baseball games will be played. A number of cornet bands will form a part of the program. The Fargo teams are not so sure of winning this year.

Mechanics is Session.

CHICAGO, June 18.—The delegates are crowded with members of the Junior Order United American Mechanics, and is calculated that over 1000 from different parts of the country are in town. This large attendance is due to the fact that the national council, which is now in session, is to act upon important amendments to the constitution, which, in the opinion of many, are calculated to have a vital influence upon the future of the organization.

Illinois Republican Nominations.

FREEPORT, Ill., June 18.—Congressman Hitt was nominated by the republican convention of the Sixth district, which met here at noon, all but two of the six prospective candidates having withdrawn. His course in congress on the international copyright bill and other measures has not, however, given entire satisfaction in his district and it is predicted that a hard fight will be made against his re-election.

National Order Possible.

CHICAGO, June 18.—A number of building inspectors from different states arrived in the city this morning to attend a convention which opens at 3 p. m. at the Grand Pacific hotel and which has for its object the organization of a national association of members of the profession.

Hope He'll do It.

SAN FRANCISCO, June 18.—Chief of Police Cronin has announced yesterday that he would make an effort to stop glove contests between professional pugilists as given in various athletic clubs of this city.

Good for Maryland.

BALTIMORE, Md., June 18.—A jury in the criminal court yesterday, decided that social clubs possess no more rights than private citizens and found August Bender and Alphonse Mayath, president and secretary of the Carrollton club, guilty of selling liquor on Sunday.

NEWS IN WASHINGTON.

The New Tariff Bill as it Comes From the Senate Committee.

In Both Senate and House; General News of the Capitol.

WASHINGTON, June 18.—A full meeting of the senate finance committee was held today, at which the chairman was authorized by a strict party vote to report the tariff bill with amendments. A member of the committee says that, with the exception of the wool and agricultural schedules, the bill is almost identically the same as the bill of the senate finance committee reported in 1888. No formal report accompanied the bill. A statement will be reported showing the effect of the provisions of the bill upon the receipts of customs as compared with the receipts under the present law and those estimated under the house bill. It is the understanding that the debate on the bill will not begin until about July 1.

The following are the principal changes made by the senate. The glassware classifications are changed and a large general reduction made. Steel rails reduced from \$12.44 to \$1.20 per ton; mica and crude nickel are put on the free list; saved boards \$1 per 1000 feet; No. 10 bounty is to be given for less than 500 pounds of sugar annually, and sugars between 13 and 10 are made in many tons in the agricultural schedule, and exporters of meat are not allowed a rebate on salt used in curing meats. Natural mineral waters are made free. The duty on cotton manufactures are reduced all through the schedule also in the flax and hemp and jute schedule. Only slight changes are made in wool, the principal one being to correct a typographical error that the house refused to correct. The bounty for silk and cocoons raised and needed in the United States, is stricken out. All buttons, except agate, pearl and shell are made dutiable as manufactures of the material of which they are composed, a large reduction. Works of art, taken from the free list and made dutiable at 30 per cent ad valorem. The limitation of \$500 as the value of wearing apparel a person may bring into the United States is stricken out.

The senate has gone into executive session to nomination of John B. Hayes, collector of internal revenue for the western district of North Carolina. The silver bill as amended by the senate, was presented to the house. It was received with much applause and immediately moved that the committee of the whole on the bill be ordered to report at once proceeded to the consideration of the bill. On a vote the committee refused to rise and the bill was continued the consideration of the Indian appropriation bill.

The absorbing topic of interest today in the house is the probable disposition of the silver bill which passed the senate yesterday. When the bill was received from the senate this afternoon, Mr. Bland's motion that the committee of the whole rise in order to immediately consider the bill was received with wild applause by his fellow democrats, who saw their chance to score a point and supported it as a unit, with two exceptions. No republicans voted for the motion, as it was entirely improbable that the bill could have been reached even had the committee risen.

They Worked for Them.

WASHINGTON, June 18.—Nominations: To be postmaster, James H. Vandjke, at Alexandria, Minn.; Parvin P. Palmer, agent for the Indians of the Cheyenne River agency, South Dakota.

Guys by Gammas.

WASHINGTON, June 18.—Complaint has been made to the police of this city by officials of the Chinese legation that the ladies of the legation nor themselves can, during these warm evenings, avail themselves of the cooling balconies of their legation residence without attracting a crowd of curious idlers, who, by their manners and conduct, greatly annoy them. The legation is so continuous and so persistent as to practically make prisoners of both the ladies and officials of the legation within the walls of their residence.

TELEGRAPH BRIEFS.

Mr. Rose, the chief of the census bureau of Baltimore, thinks the present population of Baltimore is between 437,000 and 480,000.

There is no change in the strike situation at Cleveland today, but six strikers of the Lake Shore & Michigan Southern road are said to have decided to return this afternoon.

The Crawford County Democratic county convention at Meadville, Pa., nominated Hon. W. L. Scott, of Erie, for congress.

Hon. Wm. H. Hatch was renominated by the Democrats in the first Missouri congressional district at Kahoka, Mo.

Emperor William has conferred the decoration of the order of the Black Eagle upon Chancellor Von Caprivi.

NOT THIS YEAR.

But When it Does Come it Will be a Big One.

The result of the recent meeting of the Lined Oil trust at Chicago is that a mill will not be built this year at Duluth. For each year since 1880 the report has gone forth that a lined oil mill was to be located at the head of the lakes, and each year the scheme has failed to materialize. The Mankato line, need men, Messrs. Hubbard, Piper and Willard, were in town this morning. "It has been decided," said one of them to a Herald reporter, "not to build a mill this year. The trust was against it, but even this would not have deterred them from locating a plant here, had not other contingencies arisen. But Duluth will not be the loser by waiting another year for the lined mill. We have batters now so that in 1891 the largest mill in the United States will be erected in this city. Such a plant as we contemplate will necessitate the expenditure of \$500,000 and its capacity will not be equalled by that of any mill in the country. There will be no postponement of next year's plans."

DIGGING TOWARD DEATH.

Workers in the Mahoning Mine Nearing the Flame; Another Explosion Feared.

DUNDAH, Pa., June 18.—There is not a ray of hope or encouragement offered the weary rescuing parties at Hill Farm mine this morning except that they are one day nearer the completion of their work. The loss piles of fallen slate and coal in the disused chambers of the Mahoning mine have been passed. The main work is now in hand. The rescuing parties from the Mahoning are digging through and are now working within seventy feet of where they expect to break into the Hill Farm lead.

There is, as usual, a conflict of authority on this question, as some still claim they are digging straight through into the burning mines, but that they are fully 400 feet beyond where the men are supposed to be. The men will probably not be obliged to dig through the solid wall after all. There is a steady draft setting in towards the burning chambers, and it now looks as if the men had made no mistake in their calculations, and will hit the nearest point to a hair's breadth.

There are even graver fears now of another explosion since an occurrence of this morning. About 2 o'clock a heavy fall was heard in the mine, and those standing about saw the smoke that had been pouring out in an ever-increasing stream suddenly stop. At the same time a trip bell away down in the burning mine rang out loudly. Many thought the men had reached it to give an alarm, but this is absurd, as even if alive, they would have been obliged to traverse at least 300 feet of flame before they could have reached the bell. It was found out after that a heavy fall had occurred in the main slope and had cut off the draft. This has turned the smoke and heat back into the chambers in such volume that no man could live. The heat in the Mahoning drift is growing more intense and only an occasional blast from the fan makes the work bearable. This stoppage of the draft will also shut in the gas, and work is proceeding even more cautiously than before. Inspector Keighley is in the lead every moment now as they expect to break through today. He will make but a small opening at first and then make a thorough test of the gas before venturing farther.

Disaster From a Cloud Burst.

ELIZABETH, Pa., June 18.—Two clouds meeting broke over Osceola last evening causing the waters of Holden brook to rise to an unprecedented height. Mrs. Tripp and Miss Mary Thompson were drowned and their bodies have not yet been recovered. Nearly 20 buildings were moved from their foundations and a frightful jam was formed at the trestle of the Fall Brook railroad. The trestle of the Madison and Pottsville road is gone. Tannertown is in ruins. Many people were rescued from houses at great risk.

Another Iowa Decision.

DES MOINES, Iowa, June 18.—Judge Kavanaugh has rendered a decision in the original package case of the State vs. Terry Chambers. The judge sustains the lower court in condemning the liquor, the evidence tending to show that Chambers had broken the original package and was selling in quantities to suit purchasers. The opinion says that the right of a citizen to import intoxicating liquors into the state and the corollary right of the importer to sell the goods thus brought in is no longer a controverted question but holds that the goods must remain in the package in which they were imported.

The Commission Succeeding.

DES MOINES, Iowa, June 18.—Commissioner Campbell, in speaking of the authority of the Iowa board of railway commissioners over the railroads of the state, said: "Up to June 1, 1888, 118 cases were reported against the various railroads in the state. Up to June 1, 1890, but 42 cases were reported, while up to the 1st of the present month, 35 cases have been reported, all of which show that the roads are beginning to understand that the board means business and that its decisions are final."

Comparatively New Method.

HANBURY, Ia., June 18.—Three desperate men, with a lasso, secured a \$1,000 check from J. H. Stewart, a Kansas City capitalist, yesterday. Stewart was in a precarious condition last night from the use of a long rope about his neck, and dragged him over the dashboard. He was helpless in their hands and signed the check to escape. The trouble grew out of litigation over the title to land claimed by the Goldens and by Stewart.

A Seattle Suicide.

SEATTLE, Wash., June 18.—Joseph C. Seaton, a young attorney who came here a month ago from Leavenworth, Ind., committed suicide in his room last evening by hanging himself. The cause of the suicide is not known. He is said to be a graduate of Yale and highly connected.

The Ministerial Council.

CHICAGO, June 18.—The national council of ministers of the Swedenborgian denomination of the new church, commenced at the new church temple on Van Buren street yesterday afternoon. The council is preparatory to the general convention of the New Jerusalem (Swedenborgian) church.

A Terrible Freight Wreck.

ASHEVILLE, N. C., June 18.—There was a terrible wreck of freight trains on the Asheville & Spartanburg branch of the Western North Carolina railroad at Melrose station last night. Four men are reported killed and three badly wounded.

Quebec Elections.

MONTREAL, June 18.—The elections for the province of Quebec were held yesterday. They resulted in the Mercier government being sustained by an increased majority. The standing of the parties is as follows: Ministerialists, 45; oppositionists, 22.

In The Ninth District.

FAIRBURY, Ill., June 18.—The Democratic convention for the ninth congressional district yesterday nominated Col. W. H. Snow, of Sheldon, for congress.

Buckeye Conventions.

ZANESVILLE, O., June 18.—The Eighth district convention yesterday nominated Congressman James W. Owens (democrat) for re-election.

The Miller's President.

LAST EDITION. NEWS FROM WASHINGTON.

The Surgeon General Tells of Possible Cholera; Notes.

In House and Senate; Legislative Doings of the Day.

WASHINGTON, June 19.—Surgeon General Hamilton, when asked how serious the outbreak of cholera at Puebla de Sagunt, in southern Spain, was likely to be, and what the chances were of its spreading beyond its present confines, replied:

"The indications are that it is the real Asiatic cholera. The locality is subject to such visitations, as was the case in 1855. The cholera is liable at any time to enter Europe by the Spanish peninsula, and it is generally taken there from Tunis or Tripoli. How it has reached Spain this time is a question yet to be solved. Cholera was reported in 1889 in Bagdad, Constantinople, The Philippine Islands, Persia and Mesopotamia. It was severely epidemic in Asiatic Turkey and Persia. Its decadence was noted in October, 1889, but it was not finally pronounced extinct until much later in the year.

"As to the prospect of its spreading, I should say that it may run over Spain, though it is to be hoped that it will not, but with careful and prompt precautionary measures it ought not to be allowed to cross the Pyrenees and I have no doubt steps will be taken by the French sanitary officials that will prevent its taking root in France. There may be a few sporadic cases as in 1855, but it will be controlled.

"The fact is, the existence of cholera is one of the blot on this intelligent age. There should be no such disease. It is susceptible to control and extermination, and yet it always exists to a greater or lesser extent. I have no fear that it will do so in Spain. The French sanitary system is excellent and the frontier between the two countries would be closely watched, trains would be inspected, passengers examined and quarantined and baggage and merchandise thoroughly fumigated. We can feel that we are quite safe from the pest.

More Lively Scenes.
WASHINGTON, June 19.—The house journal having been read, Mr. Mills objected to its approval on the ground that the clerk had not read it in full. The speaker suggested that the clerk had only omitted to read such portions as it is customary but directed the full reading. The clerk proceeded to read that portion of the journal which contained the reference of the silver bill to the committee on coinage, weights and measures.

During the reading Messrs. Mills and McKinley remained standing anxious to claim recognition. The latter was successful and he moved that the journal be approved. Upon this he demanded the previous question, despite Mr. Mills' protest that he was entitled to recognition to move to correct the journal. Mr. Springer rising to a point of order raised the point that the journal contained a record of something which had never happened and which should not be in the journal. The speaker, referring to the committee on coinage, weights and measures, was incorrect under the rules of the house and was made without authority, and resolving that the journal be corrected by striking therefrom the portion which Mr. Cannon raised a point of order against the resolution. It proposed to strike out an entry in the journal which recorded a question of fact. It was not in order for the reason that, if adopted, it would have the effect of changing a reference of a bill with Senate amendments otherwise than was provided by the rules of the house. Mr. Mills characterized Mr. Cannon's position as the boldest, most reckless and absurd position he had ever heard maintained in a legislative body.

Approved Acts.
WASHINGTON, June 19.—The president has approved the census deficiency appropriation bill, the act providing for the exportation of furs, liquor in bond without payment of internal revenue tax, and the act amending section 3534, revised statutes.

SOUTH DAKOTA DRENCHED.
It resembles a cyclone in some of the counties.
HURON, S. D., June 19.—Heavy rain and wind storms are reported from various localities. They occurred late last night or early this morning. At Redfield, Spink county, a sharp wind storm occurred accompanied by heavy rain. The Episcopal church was lifted from its foundation and badly crippled. The standing trees or four miles apart were blown to pieces. The direction of the twister was from the northwest to the southeast.

A cloudburst occurred near Appleton. Five members of George Weyer's family and three of William

McElroy's family were drowned and much stock destroyed.
At Faulkton two cars loaded with steel rails were blown from the track. At Athol the rain was very heavy, but no damage was done by the wind or hail.

AN EXTENSIVE AUCTION.
Remains of the Jay Cooke Loans to be sold.

PHILADELPHIA, June 19.—Memories of that never to be forgotten "Black Friday" and the failure of Jay Cooke will hover this afternoon in the Philadelphia exchange, where the remaining assets of the one time financial king will be submitted to public auction. This property comprises 100 acres of fine lands in Harrow, Burleigh, Cass, Richmond, Steele, Stutsman and Traill counties in North Dakota, other lands in Iowa, Minnesota, Nebraska and Missouri and the entire stock and bonds of the famous Lake Champlain Iron company, owning 3,000 acres of iron ore property in New York state, together with a quantity of miscellaneous stocks, bonds, notes, contracts, etc.

The committee has given instructions that the entire property be disposed of without reserve and that the proceeds will be continued from day to day until the list has gone under the hammer.

MADISON SQUARE GARDEN.

Ten Thousand Persons Attend, Strains Being the Attraction.
New York, June 19.—The largest amphitheater in America, and probably the largest in the world, was opened to-night by the dedication of the New Madison Square Garden. Fully 10,000 people were in attendance, of which number more than 5,000 had to be content with standing room only. The 7,000 seats provided by the house were all filled long before the doors were opened, and the rush for the available standing room was begun before dark.

There is a balance in the treasury of nearly \$750,000. The special order for today is the proposition to change the name of the order to the American and on the ground that the present title is misleading. The council will take up the amendment of the constitution of the public schools, of the reading of the Bible in the public schools and against sectarian interference therein.

Mrs. Burnett's Gift.
New York, June 19.—Mrs. Frances Hodgson Burnett, the author, started today for Europe with her little sick son, "Little Lord Fauntleroy." Limer was first taken sick last winter at Washington, and she has since been nursing him down to Atlantic city. But the air of the sea only seemed to make the boy worse, and his mother came with him to this city. Here she consulted a doctor, and under his care about three weeks ago he began to grow worse. They go to the south of Germany.

A Political-Industrial League.
INDIANAPOLIS, June 19.—Representatives of the Farmers' Mutual Benefit association, Farmers Alliance, Patrons of Husbandry, the Wheel, the Grange and the Industrial Union of North America, holding a conference here today for the purpose of organizing a political league in the interest of the industrial class. It is proposed to require candidates for public offices to pledge their support to measures for the interest of the farmers.

Texas War Conflict.
HOUSTON, TEX., June 19.—The Houston light guards are reported under arms by order of Capt. King, being in readiness to respond to a call of the sheriff of Polk county, in which trouble is expected. A negro at Livingston, who cut the throats of a white man named Morris a few days ago, was lynched by a posse of armed men. In revenge a band of negroes killed two of the men alleged to be implicated. A bloody race war is feared.

Granite State Convention.
MONTREAL, June 19.—A republican state convention was called to order at noon. References in the opening speeches to President Harrison were enthusiastically applauded. The content for governor is between Governor N. A. Woodbury of Burlington and Carroll S. Wood. Mr. Woodbury has made a spirited canvass, but the chances favor the former.

A Minneapolis Concern Dies There.
MINNEAPOLIS, June 19.—(Special.) The fact that seven acres of ground are being street cars for Portland, Seattle and Tacoma, have been awarded to Robinson & Moen of this city. The North-western Thompson-Houston company has been awarded the contracts for furnishing the power.

TELEGRAPHY TRIES.
M. Bursell, French electrician, has been presented to Jules Roche, minister of commerce. Roche declares that Bursell is a rival of Edison, and that he is the real inventor of the telephone, having twenty years in advance of either Edison or Bell. Roche instructed Bursell to undertake the improvement of the extremely defective telephone service of Paris and the province.

The bank order respecting the discount on American money comes into effect at Winnipeg Friday. In addition to 20 per cent. discount on silver, there will also be a discount of 5 per cent. on bills. Discounts there will soon drive all United States money out of circulation in that country and will be a source of annoyance to travelers.
The instance of France that resident British subjects of the second generation shall be subject to military duty, is the cause of irritation between England and France. There is a large British colony in France claiming to be British subjects, and the sudden drafting of the sons and grandsons of British subjects into the French conscript has shaken up the exiles tremendously.

In an anti-slavery speech, R. G. S., secretary of the British and Foreign Anti-Slavery society, said he greatly approved of the establishment of an English protectorate over Zanzibar. It will now be England's fault if slavery continues in this section of Africa.

FROM OVER THE BRINY.

Prison Conference Have Illustration of Russian Ways.

Affairs of Africa and Newfoundland Are Talked of.

LONDON, June 19.—The international congress, in session in St. Petersburg today, adopted resolutions declaring that, first, in future treaties between nations the general principle of extradition should be recognized and agreed to as to the nature of cases to be deemed exceptions; second, that international associations should be organized to assist discharged prisoners and their families; third, that the action of charitable bodies both preventive and curative, should be through a general agreement; fourth, that disorderly conduct should be punishable; the sellers of alcohol should be responsible for crimes resulting from their serving to drunken men, and that the sale of liquor for credit or to children should be prohibited.

Mr. Randall of Michigan, will address the congress on the subject of "Young offenders."
Madame Tschobikova, whose recent letter to the czar protesting against the system of government prevailing in Russia led to her arrest, has been removed to the village of Varenki, in the remote northern part of Noolgia. Fifteen other prisoners were sent to Varenki with Madame Tschobikova. This is an excellent opportunity for the prison congress to discuss the treatment of prisoners in the matter. The paper further says that if France refuse to accept pecuniary compensation for her recent rights, the London Salisbury will repudiate the treaty of Utrecht, and will then open negotiations for a new treaty giving to the French the right of fishing and cod and lobster fishing grounds, and to the colonists exclusive rights on the coast and banks.

An Historical Incident.
LONDON, June 19.—The lord mayor of London today created the border line of Scotland to state, and the event is noteworthy from the fact that it is the first time in the history of Great Britain that such a visit has been paid. The lord mayor who was accompanied by the mayor of London, Sir John Lubbock, and a number of aldermen received a hearty reception from the citizens of London. The lord mayor of Edinburgh and in honor of the exhibition now being held in the city. The party will be accompanied by the corporation of Edinburgh and tomorrow will visit the exhibition in state.

MONMOUTH'S GIGANTIC COURSE.
People Must See the Track to Realize its Magnitude.
New York, June 19.—Monmouth Park, where racing begins July 4th, is to be one of the wonders of the country. No description that will do justice to Monmouth Park's new race course can be written. Great and grand as Morris Park, Monmouth Park overtops it in every respect. The grand stand is built on lines wholly unlike those of any other structure, the overhang of the roof being seventy-five feet, thus protecting the occupants of the huge edifice from the burning rays of the sun, or the rain no matter how wild the weather may become, and those who are familiar with old Monmouth have seen many delirious scenes on race days at the old course, which now in the distance looks like the ghost of some departed enterprise.

This new track, which is built immediately behind the old one, is stupendous in its lines, there being a mile and three-quarters straightaway track, a mile and a half with one turn, and a three-quarters straight away that is built on a curve as tight as a snail's shell, and so wide that thirty horses could run abreast from start to finish. It is as level as a billiard table, and looking up it from the huge grand stand the distance does not look more than half a mile. The grand stand, which is now being completed, the seats only remaining to be placed in position, has not a single point from which every foot of a race cannot be seen. An idea of the size of the grand stand, betting ring and saddling paddock may be gathered from the fact that seven acres of ground are under cover. The betting ring is gigantic, and at one end is the saddling paddock, with nearly 100 receiving stalls, in which the horses to be run during the entire day may be kept. There is a wide walk, nearly 100 yards in length, between the rows of stalls where the horses may be walked.

A Feminine D. D. S.
BOSTON, Mass., June 19.—Annie Felton Reynolds, the first woman dentist to graduate in Massachusetts, received her degree of D. D. S. from the Boston dental college today. She also received first prize for senior honors.

Shall It Be Rehearsed?
Another hearing in the Hyde case will be held in Washington today before the secretary of the interior. It will not be reported upon, however, under a month yet. Upon this decision will hinge also the establishment of title in the Glendive and North Dakota cases, which were located under Sioux scrip. All the parties interested are represented by lawyers of national reputation. The question today is upon the motion for a rehearing, no decision of any kind having been made. This the secretary of the interior granted, and fixed the 19th of June as the date therefor. Once let this issue be settled and free to work, and it opens activity on the range. The indications seem to point to the success of Eaton & Merrill.

The Enumeration.
No instructions have yet come from Washington closing the census. The enumerators are hard at work, and today taking additional names. All is going on smoothly, with the exception of Enumerators Thorpe's district, where a new canvass will be made.

La Prairie Is Hoaxing.
We offer for sale lots 1, 2, 3, 4, 5, 6, block 4, Smith's First division to La Prairie, opposite the depot, at a bargain on easy terms, or will exchange for Duluth or Superior property.

THOMPSON & ROYALTY.
Rooms 7 Exchange building.

PERSONAL.

Rev. G. H. MacClelland is expected from Fair Haven today where he has been attending the Northern Minnesota Baptist association.
Frank Love of St. Louis, is the new stenographer with Merrill & Leddell.
T. H. Hawkes and Miss Abbie M. Adair returned yesterday from attendance at the convention of Christian Endeavor at St. Louis.
Dr. S. C. McCormick left for St. Paul last night to attend the state medical convention.
Mr. and Mrs. A. E. Brand, Helena, and Mr. William Hamilton and wife, Saginaw, are guests at the St. Louis.
A. Hugh, manager of the St. Paul & Pacific coal company, is in the city.
Mr. and Mrs. H. Tripp, Chicago, are stopping at The Spalding.
S. R. Anisale, general manager of the Wisconsin Central, arrived in the city this morning. His wife, father and mother accompany him on a trip which is only one of pleasure.
Mrs. T. H. Hulbert has just returned from a long stay in Chicago and elsewhere.

Miss Sophie MacLaren returned today from the young ladies school near Chicago, where she has been the past year, and Mrs. E. D. Field left last night for several weeks' visit in the East.
Mrs. E. P. Case came in yesterday from Waterville, Maine, with the intention of making Duluth their home. F. Alderman, county attorney, J. B. Douglas, a lawyer, and H. Tutton, all of Brainerd, are in Duluth.
Mrs. J. O. Mills, who has been with her husband for some time, returned today to their old home in Crookston.

Social Notes.
Messrs G. G. Barnum and John Macleod have engaged the Barker and with a party of Minneapolis wealth and friends will start Monday down the north shore. They will cruise around Isle Royale and may decide to go to the stock participants in profits all.

For the Bethel Sunday school picnic Saturday the teachers have raised sufficient funds for the cost of the entire trip, and so no tickets will be sold and none but Bethel people and children and their parents will be invited to go. A crowd will undoubtedly go and many a youngster is hoping for cloudless skies Saturday.

Many interested in music enjoyed an extremely pleasant evening at the home of Mr. and Mrs. C. H. Clague last night. There were nearly 100 people there, invited to a musicale to meet Miss Heald, an Olethian friend of the Clagues and, now teacher of music at Carlton college, in this state. A program was carried out as follows, and there were several numbers given as encores. Andante in F and variations, Beethoven, Miss Heald; vocal solo, "Maiden Fair," Lyness, Mr. Robinson; Nocturne in G minor, Sorrenti in D, Minuet in G, Miss Heald; soprano solo, "Dreame," Mrs. Loman; Natchitoches in F, Monette musicale. A flut, Miss Heald; soprano solo, "To the Sea," Miss Nicholas; Pilgrims March, from Tannhauser, Miss Heald. The Ladies' Missionary society of the First Presbyterian church has its regular meeting tomorrow afternoon in the church parlors.

STRAW AND DRY HATS,

FINE FLANNEL SHIRTS,

Neat and Rich Neckwear,

WALKING CANES, GLOVES, ETC., ETC.

LEVY BROS., PROP'S.

LAST EDITION.

WHAT DULUTH WILL SHOW

A Close and Semi-Official Es-
timate of Her Popu-
lation.

The Head of The Lake, Both
Sides, Will Show 52,-
000 People.

While there is a little work yet to be
done on the census of Duluth, and while
one district remains to be recounted,
the total of population can be very close-
ly estimated, and The Herald is able to
give today, from semi-official and un-
doubtedly authoritative sources, a state-
ment of what the population will be
shown to be.

It is almost unnecessary here to say
that the sources of information are per-
fectly correct, but they are none the less
correct.

The total population of Duluth proper,
including only the territory in city limits,
will be between 37,300 and 37,500. Be-
cause of the expected recount in one
district the figures cannot be given closer.
Totals of enumeration of West Duluth
and Lakeside are not yet made up, for
the reason that the enumerators have
not finished their work and will not, for
a week. It is understood, however, that
careful estimates give the two suburbs
4000 people, making a total for Duluth
and suburbs of not less than 41,000 souls.
This is about what was expected by con-
servative judges.

How Superior Shows.
Superior, Minn., June 21.—[Special
to The Herald.]—The census here will not
show the population expected. It is not
claimed now by the most sanguine that
the entire city, east and west, will count
over 12,000, while your correspondent
has the best of reasons for believing it
will foot up between 10,500 and 11,000
people.

How They Caught On.
Prof. W. F. Phelps, ex-secretary of the
Duluth chamber of commerce, is in the
city. "Minneapolis is entirely to blame
for the disruption between the two
cities over the census matter," he said.
"When the enumeration first started in
Minneapolis people claimed that they
had perfected a system whereby a
full count would be assured. We at St.
Paul had not given the matter the
attention it demanded, and thought it
a good plan to send a committee of three
to Minneapolis and take points from
their plan of census taking, so that we
could apply it to St. Paul. They found
their scheme of enumeration, but could
not with good conscience follow it. The
committee accidently on duty today. The
methods of the enumerators in padding
the reports, and of course, denounced it
in the severest terms. The census of
St. Paul has already been very in-
habitant from Manitoba to the Gulf knows."

Not on the Lists.
The residents of Lakeside are not at
all satisfied with the manner in which
the census is being conducted in their
village. Yesterday afternoon they took
the matter into their own hands and in
a short space of time and within a dis-
tance of two blocks, they found seventy-one
people who had not been seen by the
enumerator and whose names were not
on the lists.

Notes.
By the figures above given the total
population of the head of the lake, Du-
luth and Superior together, is 53,000
people. Those who compare will do well
to recollect that in 1880 Duluth had 3470
people and Superior about 1000.
Enumerators Thorp has received notice
from Washington that he must retake
the census of his district.

MANY BIDS OPENED.
The Board of Works Opens a Half Dozen
Sets of Bids.
The board of works at its meeting
this morning opened bids for the follow-
ing street improvements:

Macdonald Michigan street from
Twenty-fourth avenue west to the south
city limits, J. C. Morrison, \$28,000; Zim-
merman & Moore, \$28,500; Jos. Wolf,
\$28,570; Forester & Bros., \$29,000. The
contract was awarded to J. C. Morrison.

Storm sewer in Fourth avenue west
from First to Fifth streets, Campbell
& McDonald, \$8941.00; T. A. Sheridan,
\$10,167.40; J. C. Morrison, \$9342; Forester
& Bros., \$9022.50; Zimmerman & Moore,
\$10,015.00; A. H. Truax, \$10,085.30; Chris-
tianson, \$10,080.40; Jos. Wolf, \$10,482.30;
Nicholson & Co., \$10,640.40.

Storm sewer in Second avenue west
from First to Fifth streets, F. Campbell,
\$8340.20; T. A. Sheridan, \$8007.50; J. C.
Morrison, \$9223.50; Zimmerman & Moore,
\$8883.30; Chris Christianson, \$10,023.50;
A. H. Truax, \$10,034.50; Nicholson & Co.,
\$10,093; Joseph Wolf, \$10,688.50.

Storm Sewer in Second avenue east
from First to Fifth street, J. C. Morris-
on, \$8306; Chris Christianson, \$8240; A. H.
Truax, \$8500; T. A. Sheridan, \$8001;
Campbell & McDonald, \$8091; Nicholson
& Co., \$8200.50; Joseph Wolf, \$8151.50.

Sanitary sewer in Third street from
Tenth to Thirteenth avenues east: Chris
Christianson, \$2748.94; Anderson & John-
son, \$2702.40; J. C. Morrison, \$2842.40;
Jos. Wolf, \$2854.50; Nicholson & Co.,
\$2827; Zimmerman & Moore, \$2846.90.
The contracts for these were not let, but
they will probably be awarded to the
lowest responsible bidder.

An elegant stock of pianos to select
from at Porter & Sons.

An Interesting Exhibit.
A lecture on "Foreign Missions" will
be given on Monday evening at the
Methodist church by the Rev. B. Mit-
chell of the Christian church. The
collection of curiosities will be on ex-
hibition. The idols and arms of this dis-
play is of special interest. He will be
assisted by Mrs. Mitchell, who will
appear in the Hindu costume and sing
after the Hindu style. The lecture is
desired. During the evening a collection
will be taken for promoting this work.

World Renowned
Weber piano at Porter & Sons.

Visit the Summer Garden. Free lunch
and concert. Tivoli, East Superior
street.

Free lunch and concert at the Tivoli
tonight.

WEST DULUTH.

A Wreck Delays Trains: At the Steel
Plant: The Churches.

A bad wreck occurred on the St. Paul
& Duluth this morning just before 10
o'clock. While the switch engine was
making a flying switch, about half way
between the West Duluth and West
End stations, it jumped the track, and
before the freight cars which she had
been attempting to switch could be
stopped, they ran into the tender and
knocked it across the main track, thus
effectively blocking the short line trains
for two hours. The roadmaster was
soon on the ground with a crew of men
and tools, but decided to wait back
Duluth for a derrick with which to clear
the track. No one was hurt, and there
was no damage save to the engine and
track. It caused considerable excite-
ment and drew a large crowd.

Cogin & Luther report real estate as
looking up and on the move.
The Duluth Iron & Steel company is
rushing the new building for stock house.
It is 120x68 feet. The company has also
had fifteen teams and a force of men at
expense about \$2000 working on the
voting for the last two weeks, making a
foundation for another new building to
be 30x68 feet. The ditch which they are
moving is being placed for the founda-
tion for the coke ovens.

The Oak works has no change to re-
port in the situation of affairs with them,
further than that everything looks
favorable for an early start up.
Rand & Hart report the laundry busi-
ness as rushing and their work as giving
good satisfaction.

E. B. Newsome, the barber, formerly
on Second street, will be in his new quar-
ters in The Sun Building on Monday.
U. S. G. Sharp, W. W. Brown and V.
Clarkson, three real estate men, went
fishing yesterday afternoon and proved
conclusively that they were better at
fishing real estate than as fishermen,
their combined efforts producing but one
small fish six inches long.

The last meeting for final preparations
for the excursion of the Scandinavian
union will be held Sunday afternoon.
The Iron Bay company shipped a car-
load of castings to the South Shore &
Atlantic yesterday.
Bricklaying will commence at the
Marquette Iron works the first of next
week.

How Superior Shows.
Superior, Minn., June 21.—[Special
to The Herald.]—The census here will not
show the population expected. It is not
claimed now by the most sanguine that
the entire city, east and west, will count

city limits, J. C. Morrison, \$28,000; Zim-
merman & Moore, \$28,500; Jos. Wolf,
\$28,570; Forester & Bros., \$29,000. The
contract was awarded to J. C. Morrison.

Storm sewer in Fourth avenue west
from First to Fifth streets, Campbell
& McDonald, \$8941.00; T. A. Sheridan,
\$10,167.40; J. C. Morrison, \$9342; Forester
& Bros., \$9022.50; Zimmerman & Moore,
\$10,015.00; A. H. Truax, \$10,085.30; Chris-
tianson, \$10,080.40; Jos. Wolf, \$10,482.30;
Nicholson & Co., \$10,640.40.

Storm sewer in Second avenue west
from First to Fifth streets, F. Campbell,
\$8340.20; T. A. Sheridan, \$8007.50; J. C.
Morrison, \$9223.50; Zimmerman & Moore,
\$8883.30; Chris Christianson, \$10,023.50;
A. H. Truax, \$10,034.50; Nicholson & Co.,
\$10,093; Joseph Wolf, \$10,688.50.

Storm Sewer in Second avenue east
from First to Fifth street, J. C. Morris-
on, \$8306; Chris Christianson, \$8240; A. H.
Truax, \$8500; T. A. Sheridan, \$8001;
Campbell & McDonald, \$8091; Nicholson
& Co., \$8200.50; Joseph Wolf, \$8151.50.

Sanitary sewer in Third street from
Tenth to Thirteenth avenues east: Chris
Christianson, \$2748.94; Anderson & John-
son, \$2702.40; J. C. Morrison, \$2842.40;
Jos. Wolf, \$2854.50; Nicholson & Co.,
\$2827; Zimmerman & Moore, \$2846.90.
The contracts for these were not let, but
they will probably be awarded to the
lowest responsible bidder.

An elegant stock of pianos to select
from at Porter & Sons.

An Interesting Exhibit.
A lecture on "Foreign Missions" will
be given on Monday evening at the
Methodist church by the Rev. B. Mit-
chell of the Christian church. The
collection of curiosities will be on ex-
hibition. The idols and arms of this dis-
play is of special interest. He will be
assisted by Mrs. Mitchell, who will
appear in the Hindu costume and sing
after the Hindu style. The lecture is
desired. During the evening a collection
will be taken for promoting this work.

World Renowned
Weber piano at Porter & Sons.

Visit the Summer Garden. Free lunch
and concert. Tivoli, East Superior
street.

Free lunch and concert at the Tivoli
tonight.

VILLAGES ARE STRICKEN.

Cyclone and Storms Devastate
Several Illinois
Towns.

Many are Killed and the Prop-
erty Damage is
Great.

EARLVILLE, Ill., June 21.—The
rumor that Paw Paw was completely de-
molished and seventeen people killed as
sent out last night is false, no injury
being done to person or property there.
The storm came from the southwest
striking near Sublette and doing consid-
erable injury, passing just south of Paw
Paw, where it rose from the ground
and did no further damage. The path
of the storm was about forty rods wide
and several miles long. The damage is
about \$10,000 to property near Paw Paw.
The loss at Earlville and Sublette was
very heavy, and many are killed or in-
jured. The rains and winds were fear-
ful.

Earlville.—The storm here swept the
ground clear of everything. Trees were
blown out, orchards were obliterated and
everything destroyed. The width of the
storm was about eighty rods. Leaving
the school house, the storm swept on-
ward almost straight north, destroying
everything in its path. Occasionally it
lifted, but the whole country from near
Earlville to Paw Paw is marked with
ruin. At least fifty houses and other
buildings were wrecked and eight or
more persons killed. All buildings,
fences, orchards and crops were ruined,
and the damage done was very great.
Even forests were unable to resist the
terrible force of the wind, and huge
trees were torn up bodily or broken
down as if they had been reeds.

At the scene of the calamity near Earl-
ville, search is still going on for the
bodies of those who perished in the
school house. Jacob Rudolph was the
first one at the scene, and in crossing a
swollen stream between his residence
and the school house he, too, was carried
down, and only saved himself by grasp-
ing an overhanging limb. While yet in
the water the bodies of Miss McBride
and little girl floated down to him and
were taken out together. Searching
parties from the immediate neighbor-
hood are now engaged in the hunt for
bodies, and others from this city have
endeavored to reach the scene, but have
been forced to turn back.

The first notice that the village had
of the coming change was a dark cloud
in the southwest about between a warm
could be given, a great part of the
southern portion of the village was in
ruins, and nearly a score of inhabitants
predeceased the cyclone, which lasted
about two hours, and by that time the
streets were flooded and the creeks over-
flowing. During the heaviest of the rain
about 10 p. m. an ominous sound of
locking cloud passed just south of the
village and the awful roar it made could
be distinctly heard above the rumbling
of the thunder. It had no sooner passed
than it was observed that leaves, sticks,
straw and other things were falling from
the clouds.

Soon after, a messenger on horseback
brought the news to town that a cyclone
had passed south of the village. Relief
parties immediately made their way to
the scene. Fourteen people
were killed and many injured within
two miles of this place.
Some of the bodies were washed down
the creek some distance. They were dis-
tinguished by all clothing and more or less
mangled. The body of young White had
floated under a bridge and was not
found until about dark. The reports
from surrounding towns show the storm
to have started at Harmon, in Lee coun-
ty, and then to have proceeded to
Sublette, and then on to Compton to
Paw Paw. A great many are seriously
injured, but as distributed over a dis-
tance of over thirty miles, and cannot
all be reached.

AT WASHINGTON.

Today's Business in Both Senate and
House: Capital Yokes.

WASHINGTON, June 21.—After reading
and approving yesterday's house journal,
Mr. Bland of Missouri, moved to recon-
sider the vote by which the yeas and
nays were ordered upon Mr. McKinley's
motion to table his (Mr. Bland's) appeal
from the chair yesterday declining to en-
ertain his motion to take the silver bill
from the speaker's table. He announced
that he desired to withdraw his appeal,
but Mr. McKinley insisted on a vote, so
Mr. Bland's motion to reconsider was
put and defeated—90 to 120.

The roll was called on Mr. McKinley's
motion to table Mr. Bland's appeal, and
it prevailed—yeas, 146; nays, 45. All of
the free coinage men except Mr. De
Haven, who did not vote, voted to table
the appeal, as well as the following demo-
crats: Messrs. Bucklew, Campbell,
Dunphy, Fletcher, Geisenhainer, Lewis,
McAdoo, Mutchler and Tracey. A large
number of democrats refused to vote at
all.

The speaker has ruled that the silver
bill has been properly referred to the
committee on coinage, weights and mea-
sures, and an appeal has been entered by
Mr. Bland.

In the senate Mr. Morrill presented
several petitions for a duty of \$2 a
pound on tobacco, and several (all he
said emanating from one firm in Ohio
and sent out for signatures) against the
increase of duty on tin plate. The resolu-
tion offered yesterday by Mr. Ed-
munds, for a committee of seven to take
into consideration the state of the ad-
ministrative service of the senate and
report what measures should be adopted
in respect to the greatest efficiency and
economy of the service was taken up
and agreed to.

Mr. Foran, of Illinois, rising to a
question of privileges, said that the jour-
nal said that he was present and refused
to vote when the administrative customs
bill was passed, when, as a matter of
fact, he was in Springfield. The regular
order being demanded, the speaker
said that the question had
been discussed yesterday as to the
condition of the bill (silver bill) which
had been referred by the speaker, and
the record of which in the journal had
not been concurred in by the house, had
been said to be effaced.

THE AMERICAN DERBY.

The Great Western Event to be Run in
Chicago Today.

CHICAGO, June 21.—There is some West-
ern racing event that will always com-
mand the attention of turfmen, and
which the great big Eastern stakes can
never throw in the shade. The event is
the American Derby. When we speak
of it it conjures up memories of Mod-
esty, Volante, Silver Cloud, C. L. Ladd
and other great ones of the turf.

For this year's Derby 124 nominations
have been made. The race will be run
on the first day of the Washington Park
club's meeting this afternoon, and it is
pretty safe to assume that ten candidates
at least will go to the post.

To Corner Onyx.

NEW YORK, June 21.—A meeting was
held yesterday at the office of Foster &
Thompson, Wall street, at which the
Mexican Onyx company was organized
with a capital of \$1,500,000. The forma-
tion of the company is due to the com-
bination of all the companies engaged in
onyx mining in Mexico in order to con-
trol the market for colored onyx.

A Parrot's Practice.

LONDON, June 21.—The Parrotists
adopted very novel means last evening
to give members of parliament a clear
impression of the system of shadowing
or espionage to which Irish leaders are
subjected by the government, and
against which they vigorously pro-
tested in the house of commons last
Monday night. A roomy
large was moored in the Thames di-
rectly opposite and within hearing dis-
tance of the parliament terrace. On
this, by means of a magic lantern, large
reproductions of photographs illustrat-
ing different phases of the shadowing
with which Mr. O'Brien has for some
time been pursued were projected upon
a screen in full view of persons on the
terrace. As each photograph was pre-
sented, a Parrotist orator gave a brief
explanation of the circumstances under
which it was obtained and dwelt upon
the grossness of the conduct. A large group of
members of parliament watched the views
and listened to the speaking with in-
terest.

A GOOD SALE.

A Fine East End Forty-Acre Tract at
Good Figures.

The heaviest sale of real estate for the
week was closed up today by Richardson,
Day & Co. It was for the wily, seli
section 14-52-14, and the price paid was
\$76,000. It was purchased by a syndi-
cate of Duluth and St. Paul capitalists
and will be platted topographically at
once.

This property is the finest unplatted
forty-acre tract in the East End. There are
no railways through it, and every lot is
good. An eighty-foot street is now be-
ing graded through to be used by the
electric motor line. The property ad-
joins East Lawn addition on the north,
and the view from this point is unex-
celled anywhere in the city. Highland
Park continues to increase in popularity
and prices are rapidly advancing.

CORPORATION FIGURES.

Statements of the County Finances for the
County of Hennepin.

County Auditor La Vague has pre-
pared a set of answers to questions con-
cerning the financial affairs of the city
and county which he has sent to Super-
visor Porter to be embodied in the con-
sensus report. The answers show the fol-
lowing comparative information:

In 1880 the rate of state tax levy was
1.8 and the total levy was \$2814.34;

GRAND OPENING THIS AFTERNOON AND EVENING

BOYD & WILBUR,

Ladies' Hairdressers, Manufacturers and Dealers in Human Hair Goods

SWITCHES, WIGS,

A FULL LINE OF

Toilet Requisites, Pure, Harmless and Effective,
WAVES AND BANGS.

Tortoise Shell and Cut Steel Ornaments,
WIGS AND BEARDS TO RENT.

WE SHAMPOO, CUT AND DRESS LADIES' AND CHILDREN'S HAIR.

We desire to call the attention of our many friends and patrons that we have removed to the large and elegant store room in Temple Opera building, corner of Superior street and Second avenue east.

In these large and commodious quarters our facilities for attending to the wants of our customers will equal, if not excel, any Ladies' Hairdressing Parlors in the Northwest.

We are Sole Agents for Mme. Rawley's Toilet Masks.

ALSO ELECTRIC FOR RETAINING CURL IN BANG.

WE HAVE ALSO DEVOTED A PORTION OF OUR STORE TO

FANCY STATIONERY AND WILL CARRY IN STOCK A FULL AND COMPLETE LINE.

Temple Opera Building, Corner Superior Street and Second Avenue East, Duluth, Minn.

IN THE MINERAL REGION.

News of the Work on the
Great Iron Ranges of
Minnesota.

At Silver Islet; in Thunder
Bay District; Mine
Notes.

IRON is still at the top and a most successful season on the Minnesota ranges. The work of developing the various new properties that have been mentioned in The Herald in past weeks goes on steadily. The newest move has been the incorporation of the Lucky Boy Mining company, with a capital stock of \$14,000. Its property, which has already been explored some what, lies on the same formation and close to the Anderson and Camp, and is believed to be very good. There are several new diamond drills at work on the range and several more are expected to be set at work shortly.

H. B. Moore visited the Minnesota Mining company's mine in section 16-25-15 this week and he feels gratified with the prospects of the mine. The company is now using a drill with a good force of men, and expects to find a good yield of ore.

The Lucky Boy.
The incorporators of the Lucky Boy Mining company, mentioned above, are Messrs. Louis Kohnstamm, R. R. Macfarlane, R. M. Hunter, James D. Ray, Robert C. Ray, Giles Gilbert and Charles d'Autremont, Jr., all of Duluth.

The New Mine.
A party just in from Ely reports that the Miller, or No. 29, mine in 25-15 above, is so far in the cross-cut in the shaft of nine feet at a depth of twenty-three feet, and that it will, from present indications, be much wider. The developments on this property are watched with great interest by the leading iron men for three reasons. First, it is a short mile northeast in advance of the Chandler mine. Second, it is entirely north of the Eaton & Merritt vein of ore. Third, it is with little if any doubt, an extension of the trend of vein of the Chandler, Pioneer and Zenith mines, yet its ore differs from them in being hard, while theirs, the Chandler more particularly, is soft ore.

The Miller ore is said to be the best ore—the Bessemer and metallic iron points considered—ever found on the range, and will, if it develops into a paying mine, which it is not at present, be a great thing for the district. The Herald will keep its readers advised of the progress of the work on it.

Thunder Bay District.
The Engineering and Mining Journal has the following in regard to Thunder Bay mines:

The Baryta deposits on McKellar's island are now being worked, and the first shipment of 1000 tons will be made some time this month. Baryta experts pronounce this to be the finest deposit in America.

A discovery of a large deposit of magnetite of fine quality has been made on the Antler river, about 100 miles northwest of Fort Arthur. In the widest part there are three beds, each about

fifty feet wide, separated by narrow bands of rock running with the general course of the belt to which they belong. The deposit shows workable quantities of iron for a distance of three miles, and is traceable for about five miles. Another rich deposit has been found on the Seine river, near its mouth. Surveying parties are now taking up a large tract of iron land on the Attie Okan river. Samples of the iron have been on exhibition here for some time. It assays 67.50 pure iron and contains no deleterious substances.

A new parallel vein has been struck on the Badger property, about 300 feet west of No. 1 shaft. It is a three foot wide and carries silver, galena and zinc blende. The new work on the south end of the property has as far proven successful. Several large strings have been struck, and drifting is now being done on them.

Ten stops are now being worked at the beaver and everything is in readiness to begin milling the ore. The mill has been greatly improved. The J. H. ship will be ready about the 15th inst., and will amount to \$15,000.

A Find at the Badger.
In addition to the brief report published in The Herald's telegraph columns a few days ago the following will be of interest.

Fort Arthur, June 10.—A wonderful bonanza has been struck at the celebrated Badger mine, owned by Milwaukee people, situated near Fort Arthur. It is from this property that over \$250,000 in silver was shipped during the last twelve months. Superintendent Shear feeling satisfied that the vein in which they were working was not the only one on the location, commenced prospecting and two weeks ago struck a new vein some 350 feet north of the other. This has been traced for nearly 2000 feet; a shaft was commenced and on Saturday last, after sinking fourteen feet, a vein four feet wide was struck with an eight-inch pay streak of native silver, sulphide of silver, quartziferous galena and zinc blende, which averages 1750 ounces of silver per ton. The Badger people are very jubilant over their prospects and have purchased the adjoining property, known as location 90, 1, 100 acres of the Porcupine mine for \$100,000 cash.

In Iron Ore.
The Iron Trade Review says: The iron ore situation begins to look a trifle more favorable, and during the week there has been sold quite a respectable quantity of ore, nearly all of Bessemer grade, and including quite a block of Mononoc ore. The opinion of the trade is that before very long there will have to be some purchases made by furnace men who did not supply themselves last fall, or else quite a few stacks will go out of blast by July 1. The warm weather seems to have facilitated ore shipments, the receipts are correspondingly large.

Active pig iron markets are noted at most of the central western points. At Cincinnati there was the liveliest story that has been witnessed since the beginning of the year. The heavy buying of the few preceding weeks resulted in an over-filling of furnace order books, and on Saturday and Monday several companies advanced their prices and others withdrew entirely. When buyers became convinced that reports as to the strong position of the furnaces were

senious, there was a strong push to get iron for forward deliveries. Since Monday, however, leading sellers have held firmly to fifty cents per ton advance, and that has been paid for considerable quantities of iron without objection. In Bessemer iron and other product of this ore, there has been an advancing tendency also. The whole market looks stronger and there is a free disposition to buy for actual needs.

At St. Louis the market for southern coke iron is strong, with an upward tendency. Ohio softeners are quiet at unchanged values; and the same may be said of car wheel brands. Prices at Buffalo are a shade firmer than they have been, with a fairly active business in progress. A decided advance in southern coke iron and advances in steel and steel products have been a great relief to northern manufacturers, who are holding firmer, without having made any advances, however. During the week past have advanced fully twenty-five to fifty cents per ton.

Iron Notes.
There is considerable talk about Andrew Carnegie's new railroad to the lakes. Chauncey Andrews, the well known iron manufacturer of Youngstown, has purchased ground at Conneaut for terminal facilities. The town is near the state line, between Ohio and Pennsylvania. It is rumored that a harbor and dock for lake vessels will be constructed and a lake port made. The place is twelve miles from Grand, twenty-seven miles from Erie, and fourteen miles from Ashtabula.

Says the Engineering and Mining Journal: Current lake freight for single trips are about the same, though the bottom seems to be reached. Chartered tonnage has been made at 80 cents from Ecana, but now it is 85 cents with upward tendency. The steel steamer Pontiac, owned by the Cleveland Iron Mining Company, has just brought down from Ecana 3,300 net tons, and is the largest cargo ever carried on the lake. This cargo was loaded at Ecana in about seven hours, and unloaded in a day and a half. The new steamboat of the Minnesota Iron Company, Manoli and Marika, are also making enviable records. The distance from Duluth to Cleveland is 840 miles. Owing to water on account of which boats cannot load deeper than 14 feet 7 inches, they cannot carry as large cargoes as if they loaded at Ecana. The Marika, of that line, makes a trip regularly once a week, between Two Harbors and Cleveland, and carries about 2200 tons of ore. These are considered remarkable performances, and lake ship builders feel that they are building as fine freight boats as anywhere in the world.

The Pioneer Mining company at Ely is putting in an engine and hoisting drum.

'Twill BE THE LYCEUM.

A Glimpse at its Beautiful
and Chaste Interior;
Stage News.

Advertising Duluth; The Herald's Newswy New York
Letter.

There's a beautiful land in the Kingdom of
Weed,
But nobody knows just the way to get there,
Where actors can travel without paying fare.
But it's ever so far away!

No deadheads are known in this wonderful
No extra can live in the atmosphere bland,
Where actors can travel without paying fare.
But it's ever so far away!

ALL the ill-sounding appellations for a theater that of "Midway" is the worst. And the projectors of this palatial play house are to be congratulated that they have decided the "Lyceum" after a pretty New York house. Blasting has begun for the foundation, and the mason work will begin by July 1st. The interior of the new house will be simply superb, marble and ivory and gilt forming the decorative details. Seats will be provided for 1800 people, and from back to back of each row there will be a space of three feet, giving ample room for comfort. The boxes will be large and commodious. Two large box apartments will occupy the sides of the parquet, while a tier of boxes entirely around the dress circle will give the auditorium an elegance unequalled by any other house in the West. In all its interior arrangements—"The Lyceum"—will be modeled something after the style of the New York "Broadway."

Manager Haycock returned from New York Wednesday, and reports some splendid attractions. Up to Oct. 21, when his lease to Temple Opera expires, the following are booked: Rhea, the French actress, July 24; Maud Granger, July 10-12; Thompson Opera company, July 14-16; Eunice Goodrich, popular-price dramas; Shepherd's minstrels; Cleveland's colored minstrels; Rolk Mantell in "Moorhous," opening the season of 90-91; Kate Cawston, Rose Coghlan, Clara Morris, Barry & Fay, Nat C. Goodwin, Kendra's "Pathfinders," popular prices, one week; E. E. Rice's spectacular "World's Fair," and Frank Daniels in "Little Puck" closes the present management of the house. For the Lyceum, Mr. Haycock has the Bostonians, McCaull Opera company, Maggie Mitchell, McKee Rankin, Agnes Herndon, Gus Williams, "Sheridan's" (one week), Fay Templeton and Dan Sully.

Duluth's season of summer opera will be the best ever given in the northwest. W. A. Thompson, as stated in The Herald of last Saturday, is the manager in charge. An effort is being made to procure early Pauline Hall, Marie Jansen or Isabelle Urquhart, and others. These have been made to each of these well-known queens of the opera. Con-

tracts have already been closed with Mme. Bertman, the prima donna of the "King's Pool" company, and with Ed Morris, the inimitable comedian. The season will open July 14, with the "Grand Dutchess," the other opera of the repertoire are: "The Beggar Student," "Erminie," "Gondoliers," "Amorita," "Orestes," "The Black Hussar" and "Mikado." There will be a chorus of twenty, the full company numbering thirty-three, eight more than the company now singing at St. Paul. If Duluth doesn't support such an organization she desires never to have another season of summer opera.

Manager Miller reports some great bookings at Temple Opera for the season of 90-91.

Duluth is being well advertised the strictly throughout the East and many papers have made mention of her new theater. The following are some of the comments: N. Y. World: G. B. Haycock, of Duluth, is in the city. He has been booked by attractions for his new \$500,000 opera house, which is to be opened in Duluth next December. It is the first to say that this theater will be the prettiest and finest in the country. Of course the new house is the worst. Of course secured some substantial attractions among them being Robert Mantell, Miss Coghlan, Miss Clara Morris, Nat Goodwin, Senahan, "Little Lord Fauntleroy," the McCaull Opera Company, Fay Templeton, Lotta and Marie Weinright. Then he is going to run comic opera all summer.

Duluth's Stage News: Work on the new Lyceum, at Duluth, which is to be the prettiest theater in America, was begun last week. The location of the new house is at the corner of Superior street and Fifth avenue, fronting 125 feet on Superior street and 140 feet on the avenue, giving a ground surface of 17,500 feet. The building will rise to a height of seven stories and will be absolutely fireproof. Enterprising George B. Haycock, who is at present in New York looking for the new house, assures his friends that the house will be open before January, 1891. So far he has had applications for time from the very best organizations on the road.

Dramatic News: Duluth will have another magnificent play house, to cost \$500,000.

The Kendals will spend the summer in the south of France.

Politics are said to make strange bed fellows sometimes, but often things take a twist in the theatrical profession which knocks politics hollow. Miss Agnes Herndon is in private life Mrs. Jacob Jessel, but at Mr. Jessel and she have agreed to disengage some time since and live apart. Now Miss Herndon is backed by Mr. Austin Evans of Ohio, who is also her manager, and he in turn has engaged Mr. Jacob Jessel as his business man.

Agnes Huntington is a much sought-after star in England just now. Charles J. Abud has, however, a contract for seven terms, and it is guaranteed by the Baroness Burdett-Goutts. The fair Agnes herself is a great favorite in London social life. The old baroness has taken a violent fancy to her, and not only do they live together on family with Mrs. Huntington and her other daughter, but the fair Agnes accompanies the baroness on all the occasions of the great social functions of London.

NEW YORK LETTER.
A Stranded Chinese Company; Opening the Madison Square; Other Matters.

New York, June 18.—[Special correspondence of The Herald.]—The week marks the beginning of the supplement of a theatrical season. The approach of summer is always heralded by the appearance of unfamiliar names in front of the playhouses. Traveling managers and actors take advantage of the warm weather and vacant uptown theaters to experiment with manuscript more or less new and to bring before the public some building star who has been fretting away his or her existence on the road.

The Grand Opera house, New York city, will open its next season on Aug. 25 with "The Private Secretary."

It is the particular time of the season when the gullest metropolitan can behold, for \$1.50, those stars who command as high as 10, 20 and 30 cents in the backwoods.

Daniel Frohman is now in London, the guest of Mr. and Mrs. Kendal. He will leave in two weeks for New York.

The absence abroad of some theatrical snail is due to the fact that it is cheaper to live there, and easier to blow and lie there too.

The great event of the week was the opening of Madison Square garden, the greatest amusement building in the world. Its design is majestic. The amphitheater occupies nearly the entire length of the block bounded by Fourth and Madison avenues and Twenty-sixth and Twenty-seventh streets. The central portion of the roof is a great square skylight, which can be removed in pleasant weather.

The only pillars in the amphitheater are light ones close to the walls, supporting the roof arches, but they do not obstruct the view and the line of sight from the balconies and boxes that stretch around the arena is clear and un-

obstructed. Above the boxes and seats there is a promenade where the audience can walk about without in any way disturbing the seated audience. The decoration of the interior is cream white and light copper. The windows are hung in amaranth plush, while the boxes are solid white, with the seating capacity of the amphitheater is between 7000 and 8000, but the vast place will hold fully 14,000 people, the boxes alone seating 1000. This makes the largest auditorium of the kind in the country.

It is safe to say that Americans never heard waltzes, polkas and mazurkas played with the brilliancy, dash, breadth and expression given by Strauss' orchestra. They are all artists and the leader's baton as though electrified by the sweeping motions of his hand and the nervous, enthusiastic, graceful nod and dip of his head. At the performance on Monday night all the fashionable people and notables in the city flocked to the new garden where Strauss played. It was the largest audience that ever assembled in any American theater, and the enthusiasm was unbounded.

POINTERS FOR LABOR.

Federation the Chief Topic of Talk in State Labor Circles.

An Annual Meeting Tomorrow; The Clerks and Their Work

FEDERATION has been the principal topic of conversation among organized workmen of Duluth as well as other parts of the state of late. The action of the Minnesota Eight Hour league, heretofore mentioned, in deciding to call a meeting for the formation of a state federation of labor, has met with a very favorable reception. This meeting is to be held at labor headquarters in St. Paul on Monday, July 7, and will be composed of 10 delegates from the Farmers' alliance, 10 from the Knights of Labor, 10 from the Railway Brotherhoods, 10 from the Eight Hour league, and 5 each from the trades associations of Duluth, Minneapolis, St. Paul, Winona and St. Cloud. This basis of representation is not a permanent one and the delegates will arrange the preliminaries of the federation and agree upon a membership basis from the different organizations in proportion to numerical strength.

The federation, if present ideas are carried out, will be a permanent institution in this state and the first of its kind in the country. While it is impossible to forecast the exact line of policy that will be adopted at this first meeting, it can be stated with a reasonable degree of certainty that it will not resolve itself into a third party movement. It will demand certain legislation from whatever party may be in power and its members will probably see to it that their votes are cast for only such candidates as can be relied on to carry out their wishes of the producing classes. But the scope of the federation will go beyond politics and enter directly into the practical affairs of the members to the extent that the farmers, for instance, when a certain mandatory of farmers' implements should be placed under the ban of the federation, would refuse to buy the products of a farmer who might be with a miller who incurred the displeasure of the farmers by unfair treatment. These the federation might be with a miller who incurred the displeasure of the farmers by unfair treatment. These the federation might be with a miller who incurred the displeasure of the farmers by unfair treatment.

The annual meeting of the Trades Council will be held Sunday afternoon at labor headquarters. In addition to the election of officers considerable other business of importance will be transacted. Three delegates to the State Federation of Labor, which will meet in St. Paul July 7, will be elected at this meeting, the question of a state exchange will be discussed and some definite action taken. There is but little doubt that the exchange will be established, and there is also a strong possibility for having it located in Duluth. It will be on the plan of a general department store, and will be under the direction of, and sustained by the different unions and Farmers' alliances throughout the state. It will also be the co-operation plan, and if present ideas are carried out, it will eclipse in magnitude anything in the city of Duluth, if not in the state.

"The clerk's union is all right," remarked one of the members of that organization yesterday. "To be sure we have not yet succeeded in the early closing movement, but it is a step in the right direction. It is pretty certain now that the early-closing movement will not go into effect July 1, as was formerly expected. All of the merchants with one exception have signed the agreement, and the clerk's union is a single firm will have the effect of delaying the movement, at least until after July 7, when the state legislature meets. Meanwhile we shall keep urging the members of the different unions to fulfill their promises and remain loyal to our cause, patronizing only such firms as are willing to sign the agreement. If the members of the union do their duty it is a question of time when we shall be successful. The clerks are, to some extent, to blame for the delay in bringing about the movement. They are enthusiastic enough at the meetings and are not slow to form speedy and heroic measures, but as soon as they get to the store they have a sort of a rope around their necks and seem afraid to say or do anything to help along the cause. But we have the united support of all union men in this fight, and we are bound to win in the long run."

St. Paul Dispatch: A. O. Grigsby, editor of the Duluth Industrial Age, was in St. Paul Monday. He believes in harmonizing the interests of the farmer and the workman. The coming independent political movement, which has been always advised in addition to the general educational policy. Mr. Grigsby says that the work of organization is rapidly going on in Duluth and prospects are good.

The State Federation of Labor meets at labor headquarters Monday, July 7. The Farmers' alliance has officially decided to send delegates and take part in the work of the federation. The St. Paul Dispatch's union hold its first open meeting Monday evening at labor headquarters. A. O. Grigsby, of Duluth; Frank Vaseh, J. P. McGaughey, and Ben McDonald addressed the meeting, each discussing some phase of organization. The hall was well filled, many non-union plasterers being present. The secretary received a number of applications for membership. By fall they expect to have their union reorganized to the former flourishing condition.

Assistant Postmaster General Clarkson recently, referring to the demands of labor for eight hours a day, stated that he believed the time was ripe for civilization for a shorter day of labor. This not only applies to the mechanic but to the farmer, the common laborer, the clerk, the porter, the office boy—indeed, all of our population. The people of this country know what the value of what the laborer ought to have. The eight-hour day is practically here now. There are some who are holding back, but in the face of the overwhelming public sentiment which is being formulated on this subject they can not hold out. And this applies to all classes of working people. The clerks and other employees of our stores and offices are not excepted. There is no reason why a laboring man, no matter what his calling, should not have hours for leisure and improvement and for enjoyment with his family, as well as a business man or a capitalist. "If the laboring man wants to eat his dinner at 6 o'clock," remarks Mr. Clarkson, "and have a social evening with his friends, he is as much entitled to them both as a capitalist." It is a good sign that the

MAY ENRICH THE ROAD.

All the Great Montana Silver Mines the N. P. Road is After.

If Old Legal Steps are Not Changed it Will Have a Snap.

Washington, June 21.—Nothing has yet been done by congress toward carrying out the recommendation of the secretary of the interior in his last annual report for legislation concerning the mineral lands claimed by the land-grant railroads. The vast amounts at stake naturally have stimulated the great railroad corporations of the Pacific coast to bring all their influence against any such action. The company in the direction of their interest. It is really to their interest that congress should take no action at all for if the supreme court of the United States should sustain the decision of Judge Sawyer in the Northern California in December last, the Northern, Central and Southern Pacific roads would immediately take possession of mineral lands of great value.

The Northern Pacific particularly would be especially benefited by this. The Northern Pacific runs through 800 miles in the state of Montana, and one-half of this distance is through a region abounding in the richest deposits of gold, silver and copper. The company under its grant has laid claim to 2,500,000 acres of land, covering 4000 discovered mining properties bearing gold, silver and copper yet unpatented, and nearly 1000 patented mines, which have long been in undisputed possession of private owners. It is said that in one mining district alone the proceeds from the sale of the mineral claims by the Northern Pacific company are producing an amount nearly equal to the entire receipts of the company. The net of congress, making these land grants to the railroad corporations reserved the mineral lands. The Northern Pacific and other companies claim that this reservation applied only to the lands then known to be mineral, and the construction of the act has been sustained by the United States circuit court for California.

It is the best legal opinion that this is the proper construction, and there seems to be little doubt that the supreme court will sustain the circuit court. The effect would be in the state of Montana alone to take valuable mines from perhaps three-fourths of the private owners who have been in possession from ten to twenty years. The act making the grant was passed in 1874, and most of the mineral producing lands have since been discovered. The secretary of the interior strongly recommends that such private owners be allowed to retain their lands. It is said that the company's mineral claims are worth millions, from accounts which come from public sentiment in Montana is much stirred up, and the action or non-action of congress is awaited with the most lively interest.

To Visit America.—Among the passengers for the United States from Liverpool today were Dr. Hon. Joseph Chamberlain and Mrs. Chamberlain, and Mrs. Chamberlain of Boston. Chamberlain's departure is commented upon very strongly in printed circles as one of the present manifestations of public affairs and the matter that are harassing the government. Some people are inclined enough to say that the man whose career was cut out for him by Mr. Gladstone and who afterward professed to resign the "second old man" is only too glad to escape for the time being from the torments of disunion which, of late, has swept down upon him. While in the United States he will be the guest of the Endicott at Boston, and he has also accepted an invitation to visit Lord Stanley, governor-general of Canada.

Annual General Convention.—Chicago, June 21.—The seventeenth annual general convention of the Church of the New Jerusalem in the United States was called to order at 2 p. m. today in the New Church temple. Two hundred and fifty delegates, representing the various state associations throughout the country, were in attendance. The convention was opened with devotional exercises, after which Rev. Dr. Chauncey Giles of Philadelphia delivered the opening address. The Young People's league also held its annual meeting in one of the lecture rooms of the temple.

Chicago's American Derby.—Chicago, June 21.—Michigan Boulevard and the numerous other avenues leading to Washington Park, began to glow with gay appearances soon after 10 o'clock this morning, and from that time on the roadway was one steady stream of machine-equipages carrying their occupants to the scene of the great American derby. Even at this late hour the throngs were unable to decide which one of the half-dozen or more starters in the great race will capture the prize. Sam Dryden's pride "Uncle Bob," is, however, the favorite by long odds, although Bill Letcher and Blarneytoe, Jr., have many followers.

"The Art Preservative."—Missus Germany, June 21.—A great celebration in honor of the 400th anniversary of the invention of the art of printing was commenced here today. In connection with it there is a large exhibition of the art of printing from the days of Gutenberg down to the present time.

Chicago Congressional Nominees.—Chicago, June 21.—Congressman William F. Mason was renominated today by the republican convention of the Third district. It is thought that ex-Mayor Carter H. Harrison will be the democratic nominee.

T. P. A. V.—Duluth, June 21.—Knights of the grip are beginning to arrive in large numbers to attend the national convention of the Commercial Travelers' Protective association, which will be held here next week. The indications are that this will be the largest gathering of druggists on record.

THE BUSINESS SITUATION.

The weekly trade reviews are very flattering and a brighter outlook is seen in all directions. One report says that there are better crop prospects, a continued increase in the volume of business, more definite assurance of the passage of the tariff bill with its essential features unchanged, and therefore more confidence in those industries which look for help from that measure. On the other hand, the passage of the free silver coinage bill in the senate has raised some doubt whether the two houses may not finally disagree. The money markets work easily everywhere, and the continued exports of gold as yet cause no disturbance.

Reports from all parts of the country continue encouraging. Chicago has receipts exceeding last year in grain, meats, hides and wool, and larger sales of dry goods; the fall clothing trade opens well, and the trade is excellent, and in general the prospect is better for more than the usual fall trade. Good weather and brighter crop prospects stimulate trade in all directions and collections are good.

Iron is fairly steady, wool shows signs of reaction, cotton waits the departure of speculative prices. The business in hides, leather and boots and shoes is active and promising, with better prices. This is a stronger tone in coal, with an expectation of an advance July 1. The state of foreign trade is fair for the season. The earnings of railroads continue very large, and reflect the great increase in business throughout the country, as do the earnings through banks outside New York, which exceed last year's for the latest week by 15.5 per cent.

The business situation locally is excellent. Money is not close but is in good demand. The bank clearings for the fiscal week have reached a total of \$2,407,722.90, a fair gain over last year. Wheat has been dull during the week, but has risen in price half a cent. Trading has not equaled that of the previous six days. Local wholesalers report increased business, chiefly because of the better crop outlook in all the country tributary to this city. It is expected that flax will soon be added to the grains actively handled and dealt in here.

In Germany and in England the census is taken in one day. The whole territory is covered in a few hours. Every man, woman and child is counted where found, whether at home or abroad. Thus omissions, duplications, padding and all other possible inaccuracies are reduced to the minimum. We ought to use in this country a method possibly somewhat similar. But it is to be said of our census, that its inaccuracies will probably be relatively much like those of our former censuses, and therefore the growth shown by this census as compared with the others will be approximately correct, even though the actual count be inaccurate.

As noted in a recent Associated Press telegram the new naval work is divided between the two coasts. The new cruisers have not been named, and there will be a lively competition for the honor if the ambition of American cities is to be considered. Three Southern, two Western and three Eastern cities have been favored in the nomenclature of the department. The 3500-ton cruiser may appropriately be reserved for a Western city, and why should not Duluth, the most important seaport on the upper lakes, and with an export trade almost equal to that of New York, be favored? The \$150-ton cruiser will have to be named after a state, as by classification it ranks as a "first-class."

On the day after the enumeration began, The Herald discarded the over- sanguine estimates of some of the hopeful figures, and could not find reason to look for more than about 43,000 in the census of Duluth, West Duluth and Lakeside combined. There is substantial reason now to conclude that this estimate is near the correct one. There is a considerable floating population, which should more fairly be credited to Duluth than to any other point, but it is now apparent that it is impracticable to cover this with any approach to completeness in the census taking. The legal restrictions upon the count have been very carefully observed, and it is satisfactory to know, at least, that there will be no warrantable charge of padding in the Duluth census anyway. Whatever this city shows, it is unquestionably entitled to, and that is more than can be said of other aspiring cities in this state and elsewhere. We much prefer that Duluth should fall below the estimate based on the apparent strength of the city than that this strength should be shown by stretching the provisions of the law. Duluth has never sought anything except a count within the law and wants no favor. Such a count we may now hope for with reasonable anticipation.

The provision of attractive homes at a cost that comes within the means of any working man at the head of the lakes is one of the best of the practical undertakings for the building up of the city. There is more sound philanthropy in this than in many a professed charity, plunging itself in ostentatious conceit. Every

day this undertaking shows its worth in the increasing travel on the short shore lines and the Pioneer line climbing the heights of West Duluth. On the commanding site of Bay View, the first of the highland settlements of Duluth, there is a very cheerful cluster of buildings, and the spread of houses over the upland before inaccessible and untenanted should be very encouraging to the enterprising builders of the incline railway. The Herald is pleased with the assurance that the accommodation of travel in this line will be steadily advanced to keep pace with the demand, and that, night as well as day service is one of the advances which may be looked for hopefully. The pioneer incline deserves the best of good luck and The Herald wishes it the best that is going.

The chairman of the committee on patents has just submitted to the house its report on the international copyright bill. It is clear, comprehensive, forcible and, we think, unassailable. The opponents of international copyright have based their opposition on two grounds chiefly. One is that the author has no natural right to the protection of law; the other is that if the American author is relieved from the disastrous competition of pirated English reprints there will be no more cheap literature for the people. Both these reasons, as the report shows conclusively, are wholly unfounded. The right of the author is derived from the principles of common law, and is, indeed, recognized by every civilized country in granting copyright at all. It is the United States which enjoy the unenviable distinction of declaring that because an author is a foreigner his property shall be stolen at will. Furthermore, the argument that this property is unique because it is in-removable stands neither in law nor in reason. As the report says, "the major part of the wealth of the world is incorporeal." Nor is copyright a monopoly. It only protects the author in his own; it gives him no privilege which others cannot enjoy. So far as the consideration of cheap literature is concerned, it is established by first-class evidence that, as a matter of fact, the cheapness of books would be better secured by international copyright than it is now. It is pointed out that very many important undertakings in the book publishing line depend upon the assured control of several markets, and that if such control is rendered possible by international copyright, American readers can rely upon securing the best literature of contemporary writers at far lower prices than can ever otherwise be practicable. In short there is no pretext, that will hold water for a moment, for denying to the authors of the country a just share of the fruit of their brains, and for suppressing the incentive to produce at all by perpetuating hopeless competition with stolen fruit.

SEEN AND HEARD.
Louisiana has issued an edict forbidding the use of operators on the Mississippi between Baton Rouge and New Orleans. It is not that she loves alligators more, but rats less. Since the indiscriminate shooting of alligators began for the sake of their hides, the rats, which infest the bottom lands and do great injury to the crops, have increased vastly in numbers and have become a real terror to the planter, at whose instance the scaly monsters are to receive official protection. It never occurred to anybody that live alligators were of any use until they began to grow scarce. "You never miss the water till the spirit runs dry," as an old Louisiana proverb says. It wouldn't be a half bad idea to import a lot of alligators to fight Duluth wharf rats, who are getting fearfully numerous in four warehouses, docks and sewers.

The New York Dramatic News has been holding a stage "beauty" contest for the past six weeks, with the result that little Lotta has been declared the winner, with 1300 votes against 100 for Lillian Russell, her nearest rival. Beauty contests are all right in this way, but they simply prove what star is the favorite of the masses of theater goers. There are any number of women on the stage more beautiful than Lotta, but they are in humble parts, with talents less conspicuous than that of the favorite.

Most men would rather be suspected of murder than be anyone that they were not good judges of cigars. I stood near the St. Louis stand the other night, when an elderly gentleman came up to buy a cigar. The clerk gave him some of the best in the case, but they didn't suit him. After telling the salesman how much he knew about cigars, he bought six of the poorest, because he "knew" they were the best of the lot.

I had a few minutes' chat with Theophilus Smith, district census supervisor, when he was here. He made a three hours' visit to town last night, and was closeted with members of the Chamber of Commerce. "The census of Minnesota," said Mr. Smith, "is being taken with as much thoroughness as is possible. There never was a census taken yet that did not provoke unfavorable criticism, and this of all the talk about an incorrect enumeration, we will arrive at a fairly accurate count of noses. Duluthans need not worry over the result of their count, as Superintendent Porter has given the enumerators all the time they need in which to complete the canvass."

THE PURE BAKING POWDER CO., ALBANY, N. Y.

BAKING POWDER.
The claims for favor which this unusual Powder possesses are these:
It is officially endorsed and recommended by the Wholesale Grocers' National Association.
It is being used by the prominent Chefs of the Metropolis.
It has become popular with the leading ladies in the cities where it has been introduced.
It is good and honest; pure and popular.

THE PURE BAKING POWDER CO., ALBANY, N. Y.

Van Houten's Cocoa
"BEST & DOES FARTHEST."
Doctors and analysts of the highest standing all over the world, certify to this immense saving, and by VAN HOUTEN'S special process only can this be attained.
Van Houten's Cocoa (once tried, always used) possesses the great advantage of leaving no injurious effects on the nervous system. No wonder, therefore, that in all parts of the world, this Cocoa is recommended by medical men, instead of tea and coffee or other cocoa or chocolate, for daily use by children or adults, hale and sick, rich and poor. Ask for Van Houten's and take no other.

THEIR INNERMOST THOUGHTS.
Member Board Trade: Did you notice Brother Jones' hat? It's the general opinion of the boys on the board that St. Croix should buy him a new one. It is unkind to perpetrate jokes on somebody smaller than yourself.
Rev. Olympia Brown in last night's lecture: The mistake of the American people is in not letting honest women vote and in letting the scrubs and bob-tailed rule the nation. There will not be a republic here in twenty-five years if the women are not enfranchised.
Rev. E. M. Noyes: I have been down through Otter Tail county this week. The crops are looking excellently but the farmers fear trouble from frost this fall as grain is about two weeks late.
Cashier, Matter, Bank of Commerce: I expect some day the blaine from the new theater foundation will lift some pieces of broken trap into the bank.

SATURDAY'S BRIGHT SAYINGS.
(Frank Putnam.)
Surely He is Chosen.
A greater than Kings in his glory, respondent, is a pompous young Sunday school superintendent.

The Commercial Traveler.
He cares not for glory.
Neither silver nor gold.
If he has a new story
For the lambs of his fold.

The Usual Way.
Wife--(to tired husband)--Sit right down here, dearie, and I'll play I am a nurse girl.
Husband--(suddenly reviving)--All right, now give me a dozen kisses.

She had a Hobby.
PART I.
Study of botanic topics.
For the male had countless charms:
From equator to both tropics
Heated she up and down on farms.
Yet of farm life she knew nothing,
Recked she not of homely joys,
Tried not to weary her friends with
Idle babbling of dill boys.

She could write a poem with flowers,
Breathing hatred or devotion,
Grass was more charming
Than a muskadee, to her notion.

Never knew she hesitation,
When requested to recite
On the poemization station.
Or the lagoonaria white.

Home from college came this maiden,
Greeted brother, mother, father--
Secretly within her bosom
Voting coming home a bother.

No one there shared grand emotion
Like a fly speck on an ocean
She was lonely, very pathetic.
In their homely way they sought to
House her interest in life,
But she thought she ought to
Hold aloof from earthly strife.

"Better do the Monday churning,"
Said her hard, unfeeling mother;
"Hub!" she'd got too much of learning,"
Muttered her unfeeling brother.

"Come and see my new male, Billy,"
Said the boy, like crack of doom;
Came an answer knocked him silly:
"Is your Billy-made in bloom?"

SOME BRIEF BOOK NEWS.

Many Bids in for Supplying the Duluth Public Shelves.

A Good Many Short Notes of New Books and New Editions.

PEOPLE of Duluth are waiting with not a little interest and expectancy the opening of the public library and progress is being made steadily toward the desired end. The furniture has been ordered and will soon be ready and in place and the magazines and papers for the reading room will begin to come next month. Probably the reading room will be opened in July and the library a month later.

Bids for supplying the first order of 3500 or 4000 volumes have been received from several large firms including A. C. McClurg & Co., Chicago; Burrows Bros., Cleveland; Dodd, Mead & Co., New York; G. P. Putnam's Sons, New York; and De Wolf, Fish & Co. of Boston. Several others are to be heard from including Duluth Book & Paper company, Albertson & Chamberlain, Duluth; St. Paul Book & Stationery company, S. A. Maxwell & Co., Chicago, Estes & Lauriat, Boston. The bids received so far have been very favorable to the board. Librarian Davis is now busy getting up forms and blanks.

England's Naval Hero.

The publishers lately opened a new series, a companion to the story of the Nations, under the general title "Heroes of the Nations" with a life of Nelson, and Mr. W. Clark Russell was chosen to write it as a famous author on naval affairs. In such an atmosphere as was accustomed to the cleanliness and care for human life and health, know little of the naval heroes of Nelson's time were graduated. The bright men-of-war of the eighteenth century we should consider past ships. All their outward show was clean and bright and orderly. Their sides were well painted, their rigging taut, their decks white as snow, their brasswork polished like jewelry. But the moment the companion-way was eased the stench of bilge water pervaded the whole ship. The confined spaces, the reek and effluvia of many hundreds of men, the odor of spoiled provisions, combined to create a air disease breeding in the extreme. Then the discipline was ferocious and hard, it was tyrannical and the methods of drilling, press ganging and punishment were most brutal.

It was in such a discipline that Nelson became a man and a commander and it is a wonder that he did not become as hard and as brutal as the method itself. He has been invested with almost romantic character by the English people. His devotion to his country, which he suffered grievous wounds and death, his lack of fear, his determination to do his duty under all circumstances, his inspiration of others, his characteristics of mind, have endeared him to his countrymen and have placed him on the pedestal of the "heroes of nations."

The best parts of Mr. Russell's book are his vivid description of Cape St. Vincent, Copenhagen, the Nile and Trafalgar. What naval warfare is to be hereafter, no man knows, but it is unlikely that any such fighting as took place in those battles will occur again. The engagement once opened there could have been little or no direction. The smoke rendered signaling difficult, and each ship had to look out for herself. His plan of battle was simple. He used to say that his only idea was to go straight at the enemy, and no doubt the dash and fury of his onset counted for much. But Mr. Russell shows that no commander bestowed more thought upon all the possible contingencies of battle. It was his practice to walk the quarterdeck for hours, revolving in his mind every kind of evolution and every conceivable formation. It is important to note this thought and plan, for it shows that hard work and steady work go to the creation of those achievements which popular fancy is ascribing to genius too commonly imagines to be the results of inspiration alone.

The life of Saloon is to be followed by Gustavus Adolphus, Pericles and the Golden Age of Athens, Alexander the Great, Theodoric the Goth, Charlemagne, Henry of Navarre, William of Orange, Cleopatra, Louis XIV., Walter Raleigh and Blenheim, the new German Empire. These will be followed later by other well chosen volumes, and all the published by G. P. Putnam's Sons, New York and London.

Literary Notes.

Mr. A. C. Wheeler (Nym Crinkle) has just sold the right to publish his new novel, "The Toler Cup," to the Levee Publishing company for \$10,000—the largest sum paid for any Thursday last. All of the incidents and incidents of this story are laid in New York city, it having been Mr. Wheeler's purpose to ascertain whether an intensely dramatic and thrilling romance could not be made out of material more closely adjacent to the average reader than the solar system, or the heart of Africa. "The Toler Cup," which is a story comprising 255,000 words, will be issued from the press about the 25th of June.

"The Birds' Christmas Carol" bids fair to be as popular a story for public reading as it has been, and still is, for private reading.

The Atlantic Monthly for July will contain the opening chapters of a serial story, "Falcia," by Miss Fanny Murren, sister of "Charles Egbert Craddock."

"The Master of the Magicians" is pronounced by The New York Independent one of the most powerful and admirable historical romances ever written by American hands.

Mrs. A. D. T. Whitney has written a new story entitled "Acquaintance," which will be published in the autumn by Houghton, Mifflin & Co.

An order from Washington received by Pension Agent Barner, instructs him to pay to Judge Alton W. Young, the celebrated author of "Pachius Prime," a pension at the rate of \$1 per month from 1873 to date, and thereafter at the rate of \$20 per month. This will give him the handsome sum of \$2510.30. He is a sufferer from paralytic deafness and it will be recalled that he was seeking health in the South when his books were inspired.

As a remarkable bargain, titles perfect. We do not hesitate to say that taking these lots as a whole they are the cheapest batch of lots ever offered to investors. It will pay to look this snap up. Terms, one-third cash, balance one, two, and three years.

IS NO JEALOUSY HERE.

Minneapolis' Success Pleases all Christian Endeavorites.

Lutheran Growth in Baltimore; a Few Church Notes.

MEMBERS of the various Minnesota Christian Endeavor societies are enthusiastic over the fact that the national convention decided to meet in Minneapolis next year. The convention will be a big thing for the city and state, for it is one of the largest conventions in the country. This year 6,000 delegates went to St. Louis, and it is estimated that there will be about 8,000 a year from now. Minneapolis sent an exceptionally strong delegation to St. Louis to push her claims for the honor, and the members were given an ovation on their return. The local societies will begin right away to prepare for the great event, for it is so small a task to look after the entertainment and accommodation of so large a number of visitors. St. Paul and Duluth delegates aided cordially in securing the location of the convention in Minneapolis, and hope to profit largely.

The Rev. Henry Frank, who left the Congregational Church of Jamestown, N. Y., of which he was a pastor and accepted the pastorate of the Independent Congregational Church, has been summoned to appear before the Congregational association to show causes why church fellowship should not be taken from him. Mr. Frank is a reformed Jew of much talent and the affair is creating considerable interest in Eastern church circles.

The Congregationalists of London, England, are preparing to erect magnificent buildings in East London, in which will be established a university for the education of the poor exclusively. The institution will be called the Mansfield house.

The National Young Men's Christian association (colored), has issued a general appeal for aid in building a national headquarters edifice in Louisville, Ky. "Such a building," says the appeal, "will cost at least \$20,000, but when erected it will be a lasting monument and tribute to the progress and energy of the negro race."

At the last national convention, Louisville was selected as the site of the future building. Now we hope that the good of this country will see the good of the work and aid liberally in it. All subscriptions to be addressed by postal note, to Evangelist Albert Mack, Louisville, Ky. So to erect a monument to the progress of the negro, they ask the white people to chip in.

A visitor to one of the Lutheran Sunday schools of Baltimore says he found 1207 persons present, and the names of several hundred more on the roll. The superintendent is over 70, and has been at the head of this school for forty-eight years. In its average attendance, this Sunday school is said to rival what is known as Vassar's, Bethany school in Philadelphia.

LAKE MINNEWONKA.

An enchanting spot in Canada's North-west National Park.

BANFF, Canadian Northwest, June 16.—Your correspondent had the pleasure of an excursion to the beautiful Lake Minnewonka, in the National Park, the other day. It is a lovely drive over an excellent road through ever-varying scenery. The distance is nine miles from the Banff Hot Springs hotel. The road leads over the railway track on to the base of Cascade No. 2. Looking up at the immense wall of rock, so near at hand that it almost appears to overhang the road, one sees far up the height, issuing from the face of that wall of rock, a stream of water. The cascade falls almost precipitately a distance of nearly 200 feet, disappearing again at the base of the mountain, and "No man can tell whence it comes or whether it goes."

The road here bends to the right and after a brisk trot of some ten minutes through a beautiful grove of firs, we emerge on the brink of a precipice. To the right and some 200 feet beneath the road, lies a pretty valley through which the Devil's Head stream meanders. The view, looking out over the nodding tops of tall and stately evergreens, down into the hurrying stream beneath, is most charming. We are hurried along, reaching in short time what is known as the canyon. This is a natural channel cut out of solid rock. The walls are perpendicular, and about thirty feet high. At the bottom of this gorge the river rushes along with great velocity. As one stands and gazes down into this chasm, they are led to speculate on the countless millenniums that must have passed since the water began its untiring war against the rocks.

A couple of miles farther on the lake appears in view. The name Minnewonka is an Indian word, meaning deep water. It is the most beautiful sheet of water we have ever seen. As the sunlight strikes the surrounding mountains it is reflected upon the bosom of the water, it is impossible to describe the beautiful coloring. Trout and other fish are plentiful, making excellent angling. An hotel will soon be completed.

The English Dispatch Box. Jeweller's Weekly: There is one very complete and very convenient article in general use in England which has never been adopted by the people in the United States. It is the dispatch box, which English novelists have rendered familiar to all readers of fiction. Inquiry elicits the fact that jewelers and notion dealers of New York, with the exception of a few of the more noted ones, are absolutely ignorant of this article.

Several years ago William Waldorf Astor had one made to order by Tiffany & Co. It is believed to be the first of its kind ever manufactured in this country and certainly was one of the handsomest ever made. It was covered with the finest Russian leather, and was embellished and otherwise decorated in original and attractive designs. It was also handsomely mounted with silver and gold.

The dispatch box is a small hand-trunk about fourteen inches long, eight inches wide and four to five inches deep. It is intended to serve not only as a jewel box, but as a receptacle for stationery, and is divided into compartments adapted to the accommodation of the various articles it is intended to contain, and is lined with velvet or satin, as the taste of the owner may suggest. It has a flat top, upon which a silver or gold plate, containing the owner's name is usually fixed. The article is one that is conducive to the greatest convenience in traveling, its port of superiority over the more generally used hand bag with its single compartment being very numerous.

Improving on the Revivalists. The two men who had been sitting together in the seat near the door of the car became engaged in an animated controversy, and their loud voices attracted the attention of all the other passengers. Suddenly one of them rose up and said:

"Ladies and gentlemen, I appeal to you to decide a disputed point. My friend here insists that not more than three persons out of five believe they have souls. I take a more cheerful view of humanity than that. Will all of you who believe that we have souls raise your right hands?"

"Every right hand in the car went up. 'Thank you,' he said with a smile, 'he continued, drawing a pair of revolvers and leveling them, 'my friend here will go down the aisle and relieve you of whatever valuables you may happen to have. Live! now, Jim!'

A Monster Skeleton in Kansas.

Sheridan (Kan.) Times: A part of the face, with teeth, of antediluvian monster as observed yesterday projecting from the side of a bluff on the Smoky Hill river, where considerable soil has recently been washed away by the high water, and a party of citizens proceeded to follow up the indication with knives and picks. The pelvic bones and part of the hind limb of a lionid dyspepsion were laid bare, and afterward the entire skeleton. The massive tail stretched away into the blue and has not yet been fully excavated. Judging from the displacement of the parts of the skeleton, the carcass had been dragged hither and thither by sharks and other rapacious animals while lying in the bottom of the cretaceous sea which once extended over this region. The skeleton has been donated to the state museum at Topeka.

Deal Gently with the Stomach. If it proves satisfactory, mild discipline is the thing to set it right. Not all the nauseous draughts and boluses ever invented can do half as much to remedy its disorders as a few wintglassfuls of Dr. Williams' Pink Pills for Pale People. Sick headache, nervousness, malnutrition of the complexion, fur upon the tongue, vertigo, and those many indescribable and disagreeable sensations caused by indigestion, are too often perpetuated by dosing. An immediate abandonment of such random and ill advised experiments should be the first step in the direction of cure; the next step the use of this standard tonic alternative, which has received the highest medical sanction and won unprecedented popularity.

The Duluth, South Shore & Atlantic railway are selling first class limited tickets from Duluth to Chicago at \$11. To Milwaukee at \$9. T. H. LARKS, Com'l Agent, 327 West Superior street.

Deal Gently with the Stomach. If it proves satisfactory, mild discipline is the thing to set it right. Not all the nauseous draughts and boluses ever invented can do half as much to remedy its disorders as a few wintglassfuls of Dr. Williams' Pink Pills for Pale People. Sick headache, nervousness, malnutrition of the complexion, fur upon the tongue, vertigo, and those many indescribable and disagreeable sensations caused by indigestion, are too often perpetuated by dosing. An immediate abandonment of such random and ill advised experiments should be the first step in the direction of cure; the next step the use of this standard tonic alternative, which has received the highest medical sanction and won unprecedented popularity.

crus. It is essentially a box for valuables, the English carrying in it their papers, and even money, in addition to jewelry and stationery.

FOR CAMPING OUT. A Few Prices, Low and High, for Various Camping Parties.

The Advance: Those who intend to purchase tents, tent awnings, hammocks, tourist cots and other canvas goods for the out-door term may be interested in these prices: A fancy 9x9 foot tent, with double and side doors, extra high walls, good height in center, made from the best United States army duck, eight ounces to the yard, is quoted at \$15. This tent is guaranteed waterproof. One of the same dimensions warranted mildew proof, costs \$17. A family tent with flag-trimmed extension, 35x10 feet, costs \$114 if waterproof, and \$131 if mildew proof. Poles, stakes and all ropes necessary for setting up are included in these prices. Camp meeting tents of the same weight, quality and size cost \$14 and \$16 and \$111 and \$127 respectively. These are furnished with ventilators, windows, side doors, double doors, trimmings and awnings.

A portable tent, 4 feet square by 7 feet high, weighing about fifteen pounds, costs only \$10. Fine Mexican hammocks, with oval thimbles, pillows, spreaders and fasteners, range in price from \$3.50 to \$5. A cheap canvas or Mexican hammock can be had for \$1.50. An ideal United States army duck, eight ounces to the yard, is quoted at \$15. An eight-ounce yacht twill fishing or camping tent, 6x6 feet with awning costs only \$5. A canopy for the croquet grounds, seashore or garden, 12x3 feet, made of the best awning goods, costs only \$16. A camp stove and cooking utensils can be had for \$10.25.

BILL NYE'S QUESTIONS.

William Has a List He Would Propound to Superintendent Porter.

Wherever I have gone, so far, there seems to be much excitement over the census and its long list of rude and vulgar questions. I did not think that the new interrogations would be answered by enough people to make what answers are given of any value whatever. I hope that everyone who has any respect for himself remained silent on every question which referred to his own business and is nobody's else business. It will teach the lunk-headed statistician that in a government of the people, by the people, and for the people, capital punishment, or even corporal punishment, for failure to gratify the morbid curiosity of a "mean average" polyp does not obtain.

Of course the list of questions has brought forth the usual list of vulgar interrogations which are not official or authentic. The following lists before me as I was asked to answer them:

State your age at nearest birthday. (Honest now.)

Are you single or single. If so, have you other husbands or wives living, and if so, do you envy them their happiness?

Do you come up nights, or do you have to be sent for?

Are you male or female. If so, what are your reasons for this counsel?

If male, do you attribute it to heredity or to our republican form of government?

What is your salary?

Do you draw it all at the end of the week or give orders on the cashier before pay day?

Do you keep a milch cow? If so, has she ever been a mother?

Are your parents living, and if so, are they self-supporting?

Do you make your own soap or buy it at the store?

Did you consider your parents during their lifetime as respectable people?

If you produce your own soap, would you not give the recipe?

Have you any good chewing tobacco with you?

Have you any hereditary disease which you would like to mention to the American people through the census bureau?

Are you a believer in burning hell with a good draught to it, and if so, whom would you like to meet there beside the framers of these interrogatories?

Improving on the Revivalists. The two men who had been sitting together in the seat near the door of the car became engaged in an animated controversy, and their loud voices attracted the attention of all the other passengers. Suddenly one of them rose up and said:

"Ladies and gentlemen, I appeal to you to decide a disputed point. My friend here insists that not more than three persons out of five believe they have souls. I take a more cheerful view of humanity than that. Will all of you who believe that we have souls raise your right hands?"

"Every right hand in the car went up. 'Thank you,' he said with a smile, 'he continued, drawing a pair of revolvers and leveling them, 'my friend here will go down the aisle and relieve you of whatever valuables you may happen to have. Live! now, Jim!'

A Monster Skeleton in Kansas. Sheridan (Kan.) Times: A part of the face, with teeth, of antediluvian monster as observed yesterday projecting from the side of a bluff on the Smoky Hill river, where considerable soil has recently been washed away by the high water, and a party of citizens proceeded to follow up the indication with knives and picks. The pelvic bones and part of the hind limb of a lionid dyspepsion were laid bare, and afterward the entire skeleton. The massive tail stretched away into the blue and has not yet been fully excavated. Judging from the displacement of the parts of the skeleton, the carcass had been dragged hither and thither by sharks and other rapacious animals while lying in the bottom of the cretaceous sea which once extended over this region. The skeleton has been donated to the state museum at Topeka.

Deal Gently with the Stomach. If it proves satisfactory, mild discipline is the thing to set it right. LAST EDITION. FROM OVER THE BRINY.

Spurgeon Refuses a Great Bequest; Excitement in Commons.

To Retaliate on the Tariff Bill; Public Feeling Strong.

LONDON, June 23.—The almost unexampled spectacle of a man of limited means refusing to accept a bequest amounting to nearly \$150,000 has just been presented in this city.

The individual who figures in the case is the Rev. Charles H. Spurgeon, the eminent Nonconformist divine, orator and pastor of the Tabernacle.

About three weeks ago the will of a wealthy resident of the Leeds was offered for probate, and it was found that in gratitude for the consolation received as the result of reading several of Mr. Spurgeon's sermons in his last sickness he had bequeathed to the preacher the bulk of his fortune. It happened, however, that the deceased left several relatives poorly provided for, and the trustees of the estate resolved to put the case before Mr. Spurgeon. They paid him a visit at his home at Norwich, and immediately upon the facts being stated Mr. Spurgeon sent for a lawyer and executed papers by which the entire bequest was placed in the hands of the trustees for distribution among the needy relatives of the testator.

Absent members of the house of commons have been hurrying back from the continent and the provinces as fast as steam will bring them in anticipation of exciting scenes in the house this afternoon. Trouble was anticipated from the announcement of the government that it would demand a controlling of the speeches and the suspension of such complicated measures as the land purchase bill until the next session has been obtained by Mr. Smith's acquiescence in Mr. Gladstone's proposition to refer the matter to a select committee. The government has evidently taken fright at its narrow escape from a bill which would have been a somewhat more conciliatory mood. Had it not been for this backward movement the house would have seen tonight one of the most exciting, if not riotous debates on record.

A special meeting of the cabinet will be held this week to consider what action should be taken on behalf of the government in regard to the charges submitted by Mr. Charles Howard Vincent, declaring that the proposed American tariff will inflict great injury to the business of the country, and urging the house to consider whether a free market ought to be given to the competing products of a foreign state which places a prohibitory tariff upon British goods. Mr. Vincent is himself a member of the Tory party, and a source of Friday developed the fact that thirty of the government party are in full sympathy with him. Public feeling is very strong on the question, and it is doubtful if a milk and water reply will satisfy the house. Mr. Vincent is to press the matter and that if the reply is not satisfactory he will introduce a retaliatory measure.

Public feeling is very strong on the question, and it is doubtful if a milk and water reply will satisfy the house. Mr. Vincent is to press the matter and that if the reply is not satisfactory he will introduce a retaliatory measure.

A special meeting of the cabinet will be held this week to consider what action should be taken on behalf of the government in regard to the charges submitted by Mr. Charles Howard Vincent, declaring that the proposed American tariff will inflict great injury to the business of the country, and urging the house to consider whether a free market ought to be given to the competing products of a foreign state which places a prohibitory tariff upon British goods. Mr. Vincent is himself a member of the Tory party, and a source of Friday developed the fact that thirty of the government party are in full sympathy with him. Public feeling is very strong on the question, and it is doubtful if a milk and water reply will satisfy the house. Mr. Vincent is to press the matter and that if the reply is not satisfactory he will introduce a retaliatory measure.

MERCIER'S VICTORY.

Its Possible Political Meaning to Our Northern Neighbors.

MONTREAL, June 23.—The result of the election in the province of Quebec bears an unusual significance. Premier Mercier, the apostle of the Ultramontane branch of the Roman Catholic church and the hope of the French race, has been returned to power with an overwhelming and subversive majority. Five years ago Mercier led a crusade of vengeance for the execution of Riel, who rebelled against the federal government and headed the Northwest rebellion. The then existing government was defeated by a majority of seven. Before the dissolution of parliament, Mercier had nineteen members of a plurality, and now he is returned with twenty-seven majority over all other combined factors—conservatives, independent liberals and independents.

At the time the political war cry was vengeance for an insult to the race and by it the electoral was heard and driven to success. Now nationalism means something more. Mercier's victory edges that it was called into existence by the readiness of the French to gather round the cry of their unity, the Riel flag; but today it lives to forward French supremacy in Quebec, and French aggression in Canada, through an alliance of the church with the state. It is able to attain this end by appealing to the vanity of an impressionable people, and reviving in them the old dream of a new France on the shores of the St. Lawrence, influencing the development of New England, and controlling the destinies of the west—"Our country," as Bishop Rand calls it.

The propagation of the nationalist idea is by far the most important factor in the politics of this country. It has brought to the surface all the dangerous elements of the political life, and the province that was content to exercise its excessive privilege in apparent quietness is no longer willing to remain a peaceable member of the confederation.

CALIFORNIA'S OPPORTUNITY.

Her Fruits Coming In to Make Up for Damaged Eastern Crop.

NEW YORK, June 23.—Commissioners say that a cold snap of March laid, extending from Florida to Canada taking in the Eastern and Middle states, the crops of California, which will result in a large shrinkage of the fruit supply. The peach crop of New Jersey and Delaware, which last year amounted to considerably over a million bushels, will this year hardly reach 500,000 bushels, and these of inferior quality. A large shrinkage, though not to such a great extent in some directions, extended over the entire fruit supply of the New England and Middle states, and the loss to agriculture was estimated at not less than four or five millions of dollars.

He said that the country would have had to endure a fruit famine, but this year a gate of deliverance is opened in California. The crop of that state this season is unusually large and the unpropitious season of the East has produced a supply equal to the present demand. The California fruit is now in refrigerator cars and generally comes through in about six days in good condition. The dates at which the California fruit will be harvested and shipped to this market are about as follows: For peaches, from June 15 to 25; apples, early peaches; for July there will be added to these nectarines, early varieties of grapes and Bartlett pears; in August Tokay grapes and varieties of summer peaches and fancy peaches; in September the grape crop will be in its perfection and in October winter pears and late varieties of peaches and plums.

As an indication of the increased yield of fruit in California, Rivers shipped in 1889 fifteen carloads of fruit, while in 1888 the fruit shipped from there amounted to 250 carloads.

NEBRASKA WINNED.

The State is Visited by Heavy Storms.

OMAHA, Neb., June 23.—Pleasanton, a town of about 200 inhabitants situated on the Union Pacific, about twenty miles north of Kearney, was struck by a cyclone yesterday afternoon. Nearly every house in the place was destroyed or badly damaged, but no one was killed so far as reported. The landlady of a hotel was badly hurt and a druggist, Bertrand was struck on the head by a flying board and seriously wounded.

Omaha.—Between 8 and 9 o'clock last night a severe electric storm accompanied by wind and rain, swept over this city. Cellars were flooded in various parts of the town and for the property destroyed by water. On the tenth street the lightning killed a team of horses attached to a street car. On North Madison street, in the northern part of the city, Mr. Jacobson's house was struck and one child shocked. At South Omaha the Grand Central hotel's roof was struck and set on fire. Mrs. Kuhn had two children were rendered unconscious by the shock, and were rescued from the burning building by firemen. Damage in this city and suburbs by the storm, \$20,000.

PLAYED WITH FIRE.

An English Syndicate That Probably Will Not Buy More in America.

CHICAGO, June 23.—A statement is published here to the effect that the English syndicate, which has just bought the Union Stock yards in this city, is likely to find it a poor investment. It has been recognized by the Stock Yards company for some time that the encroachments of the city would soon render a removal desirable, if not also necessary. Accordingly a syndicate, including the Stock Yards company and a number of railroad companies, has formed which bought a tract of ground nine miles square, some eight or ten miles southwest of this city. On this tract it is proposed to lay out large stockyards and freight-switching yards, to serve the city and the railroad companies for all freight handled by all of the railroads running into this city. Has made sure of all the preliminary work in this direction, it is said that the Stockyards company began negotiations for the sale of its present property with the result already known. Having completed the sale, it is said that the old company will develop its new scheme and begin active competition for the business of which the present yards have for many years enjoyed a lucrative monopoly.

Still Hard at Work.

DUNBAR, Pa., June 23.—The resoling party has advanced fifty feet since Saturday. They are still working through a heavy mass of ice, and have made an open heading leading to the coal at any time. There is not much hope that the Hill Farm mine can be reached before morning.

CROKER HAS HIS SAY.

The Examination of the Boodle Charges Begun in New York.

NEW YORK, June 23.—The Passett committee arrived from Albany this morning to take the testimony of ex-Chamberlain Richard Croker, who recently returned from Europe as a result of the extraordinary developments which took place at the previous session of the committee concerning municipal affairs. Croker's evidence is awaited with intense interest by both the Tammany and Irving Hall factions, while the republicans are quietly sitting on the fence and awaiting disclosure of the result of the examination. It is said that Croker will deny the sensational testimony of McCann and also explain the alleged gifts of several thousands of dollars by Mayor Grant to Croker's children.

This afternoon the court room was filled with a large crowd of people. Lawyer Boardman, the counsel for the committee sat next to Dr. Beekman, the Croker family physician. Lawyer Wm. M. Egan was also early in attendance. Patrick McCann and his wife, who is a sister of Mrs. Croker, were in the audience. All eyes were centered on Mr. and Mrs. Richard Croker when they entered the room and took seats beside W. Bourke Cochrane, Mayor Grant's lawyer. Mrs. Croker looked rather anxious, but chatted with Dr. Beekman. Mr. Croker did not betray much evidence of lines, but looked a little worried.

Croker was at once called to the stand. He said he had come from Europe contrary to the advice of his physicians. In order to refute the charges made by McCann, Lawyer Croker read part of McCann's testimony about the \$180,000 which he said Croker had in a safe.

To bribe the aldermen to get a confirmation by some of Grant's appointment by Mayor Edson for commissioner of public works, Mr. Croker said in absolute truth in all particulars. He had gone to McCann's store about that time but had not carried a sack nor any money. No money was given him and raised for such confirmation nor any sine, nor had Grant raised \$50,000 for him. He said he had visited McCann's about the time referred to and asked McCann if he had heard anything about a safe of \$50,000. He had been raised to keep Hubert O. Thompson in the office of commissioner of public works. He said that he had seen Adams, who was intimate with Alderman Pierson, might know something about the safe. He said he had seen McCann's store by appointment subsequently but Adams said he knew nothing of the matter.

They had no other conversation. Tammany hall was doing all it could at the time to fight against the reappointment of Hubert O. Thompson, and he had desired to defeat any efforts made by Thompson to arrange for a confirmation. Tammany hall had been in the office in the latter part of 1884. It was John McQuade, John Kelly was then president of Tammany hall and Croker had conferences with him every afternoon. It was also untrue that he had given \$50,000 to get into the city on a cent on every barrel of cement supplied by the department of public works providing Grant got the nomination. He remembered Grant had stood Croker and Tammany until recently convicted of assault. I want to show where the money raised went."

SUMMER THEATERS A SUCCESS.

House Which Never Closes the Ones Which Have Been Opened.

NEW YORK, June 23.—[Special to the Herald.]—The older theatrical agents are beginning to watch such men as Sanger, Aronson, Wilson and others who have been quietly catering to summer amusement seekers during the past three or four years. It is said now that if a careful estimate could be obtained of the relative profits of the winter and summer seasons in New York, it would be found that the managers who furnish entertainment in hot weather have advanced their brethren who have occupied the winter at the big stock theaters. They are beginning to be more and more apparent that active New Yorkers are not by any means steadily or enthusiastically theatergoers. Society people find at least three nights of the week taken up by the opera during the season, and this leaves only three other nights free for dinners and and various social functions. The majority of New Yorkers have been cured of their fondness for plays by the length of the run here. A piece is put on in November at the Lyceum, Madison Square or any one of three or four theaters in town, and kept on the boards during the winter year. The New Yorker goes to see it for the first week or two, and after that its patronage is drawn from a thousand diverse sources. The summer visitor to New York, however, comes primed and eager for the play. He likes music, light opera, lights, color, and showy lights. He will accept of conditions when the winter audiences frown at, and he buys a \$1.50 seat for the theater regularly every night during his stay in New York. Thus has been made fortunes for a number of the poorer comedians and actors in New York. They have written plays and presented them entirely for his delectation, and it is not too much to say that the newest and greatest bid for patronage that the town has ever made in an amusement way—the Madison Square Garden—is designed especially for the purpose of coaxing the winter dollars from the rural visitor to New York during the summer season.

Pits, spasms, St. Vitus dance nervousness and hysteria are soon cured by Dr. Hill Farm Nervine. Sample free at Max Wirth's.

Senate Proceedings.

WASHINGTON, June 23.—Senator Allison was excluded from service on the select committee to examine into the administrative service of the senate, and Mr. Plumb was appointed in his place. The house bill for the relief of settlers on the Northern Pacific railroad indemnity lands was placed on the calendar. Mr. Ingalls offered a resolution (which was agreed to) instructing the committee on privileges and elections to inquire as to the date when, under the law and precedent, the salaries of the senators from Montana, Washington and North and South Dakota began. The senate resumed consideration of the agricultural college aid bill, and Mr. Morrill offered a substitute for the various amendments pending on Saturday as to the division of the fund between colored and white schools of a state.

Wreck on the Reading.

READING, Pa., June 23.—The locomotive, baggage car and one passenger car of the south bound express train on the Philadelphia & Reading railroad jumped the track this morning near Luckertown station, about five miles above this city. Louis Heller, engineer, was killed, and Freeman George Heller, a brother of the engineer, was probably fatally injured. George Hamilton, baggage master, and Joseph Burbanck, the express messenger, were severely bruised. Robert Colton, a porter and car conductor, was slightly injured. All the trainmen named resided in Pottsville. No passengers were hurt. Their escape from injury was miraculous, as the baggage car and one passenger coach were badly wrecked.

A Penitentiary Fire.

NEW YORK, June 23.—About 11:30 o'clock this morning a fire broke out in the Kings county penitentiary. It was discovered in the workshops and progressed rapidly extending to the main building. Three alarms were sent out and detachments of police have been sent to the scene. The convicts are said to be under control and discipline. The cause of the outbreak is not at present known.

Tug Boiler Explodes.

NEW YORK, June 23.—A terrible explosion occurred early this morning in Brooklyn by which four lives were lost. The tug boat Alice E. Crane, owned by Thomas O'Brien of O'Brien Bros. of 49 South street, this city, and which had been moored at the foot of Van Brunt street, Brooklyn, was blown to pieces at her dock by the explosion of the boiler. The cause of the disaster is not known. The boat is a complete wreck.

A Colliery Fire.

MOUNT CARMEL, Pa., June 23.—The inside workings of the Pennsylvania colliery were discovered to be on fire this morning. A large force of men, under the leadership of experienced superintendents, are now fighting the flames with hopes of conquering them. The mine is the largest in the region. The origin of the fire is not known.

The Cholera.

MADRID, June 23.—The baggage of all travelers arriving in this city from the province of Valencia is disinfected owing to the prevalence of cholera in several places in the province. One new case of the disease and one additional death there from are reported at Puebla de Lugo. There has also been one more death at Gauda.

Chicago Superintendent Talks.

CHICAGO, June 23.—Superintendent of the Census Gilbert, in an interview, says that the returns already in show that the population of Chicago exceeds 1,000,000. The city, he added, had certainly doubled its population in a decade, and was a question between Chicago and Philadelphia for second place on the list of American cities.

International Sunday Schools.

PITTSBURGH, June 23.—Every train is full this morning of delegates to the international Sunday school convention, which opens tomorrow morning, and a very large attendance is assured. All the states and territories, as well as all Canadian provinces, will be represented. There will be a social meeting of the delegates tonight.

This Comes From Minneapolis.

MINNEAPOLIS, June 23.—[Special to the Herald.]—It is stated here on apparently good authority that the census returns for Minneapolis show a population of 210,000, and for St. Paul of 160,000, both in round figures.

In the House.

WASHINGTON, June 23.—The speaker announced the appointment of Messrs. Brewer, Butterworth and Sayers as conferees on the fortification bill. The house then went into committee on the whole on District of Columbia business.

Newspaper Men Meet.

BOSTON, June 23.—Over 400 delegates to the national editorial convention have arrived. Elaborate arrangements for their comfort and entertainment have been made. The convention opens in the morning.
